

USA Cabinet Store Announces Expanded Kitchen Remodel Contractor Services

October 06, 2025

FAIRFAX, VA - October 06, 2025 -
USA Cabinet Store, a kitchen and bathroom remodeling service provider with 13 showroom locations nationwide, announces expanded design and installation services to address increased demand for professional home renovation projects across Northern Virginia and surrounding markets.

The expansion comes as Virginia home sales increased 12.5 percent in October 2024, with active listings reaching a four-year high of 20,042 properties. This market activity has driven a corresponding 15 to 20 percent increase in interior renovation projects during the fourth quarter, as homeowners choose to improve their existing properties rather than navigate the competitive real estate market.

USA Cabinet Store Fairfax serves as a central hub for the company's Northern Virginia operations, providing comprehensive design consultations, 3D virtual reality planning technology, and complete project management services. The facility showcases diverse cabinet styles, countertop materials, and bathroom fixtures, allowing customers to visualize their renovation projects before construction begins.

"The current market conditions have created unprecedented demand for professional remodeling services," said Emin Halac, CEO of USA Cabinet Store. "With homes selling in an average of 50 days and median prices in areas like Alexandria ranging from $670,000 to $760,000, homeowners are recognizing that strategic renovations offer better value than relocating. Our expanded services help them transform their spaces while maximizing their investment."

As a kitchen remodel contractor serving the region since 2011, the company has completed more than 1,000 projects and maintains a 4.8-star customer rating. The organization holds Better Business Bureau accreditation and National Association of the Remodeling Industry membership, demonstrating commitment to professional standards and customer satisfaction.

The kitchen remodeling market, valued at $19.08 billion and growing at 9 percent annually, reflects strong consumer confidence in home improvement investments. Industry data shows minor kitchen remodels generate a 96.1 percent return on investment, making them particularly attractive for homeowners planning future sales or simply improving their living spaces.

Fall timing offers distinct advantages for renovation projects, with material costs typically decreasing 5 to 10 percent during the off-season. Weather conditions remain favorable for construction work, and contractor availability improves compared to peak summer months. Projects initiated now can be completed within six to eight weeks, allowing homeowners to enjoy updated spaces before holiday entertaining seasons.

The company's integrated service model eliminates the need for multiple contractor coordination, streamlining project timelines and reducing potential complications. Direct manufacturer relationships enable competitive pricing on cabinets, countertops, and appliances, while in-house design teams ensure cohesive project execution from concept through installation.

As a remodel contractor with locations across Virginia, Maryland, North Carolina, Texas, New Jersey, Missouri, Florida, and Tennessee, USA Cabinet Store brings extensive regional expertise to each project. The company's white-glove delivery service and professional installation teams manage all aspects of kitchen and bathroom transformations, including local permit acquisition and building code compliance.

USA Cabinet Store specializes in complete kitchen and bathroom remodeling services, custom cabinetry solutions, and comprehensive design consultations. The company operates 14 showroom locations nationwide and has served more than 870 satisfied customers through its commitment to quality construction and personalized service.
