

## **RestoPros of Charlotte Achieves IICRC Certification for Enhanced Restoration Services**

*October 16, 2025*

October 16, 2025 - PRESSADVANTAGE -

RestoPros of Charlotte, a professional restoration company serving residential and commercial clients throughout the Charlotte area, has achieved certification from the Institute of Inspection, Cleaning and Restoration Certification (IICRC), the global benchmark for the inspection, cleaning, and restoration industries.

"Achieving IICRC certification represents our dedication to maintaining the highest standards in the restoration industry," said Erin Farrell, spokesperson for RestoPros of Charlotte. "This certification ensures our clients that every member of our team has the knowledge, skills, and training necessary to handle their restoration needs according to industry-leading protocols. When property owners face emergencies, they deserve restoration professionals who follow proven methodologies and maintain strict quality standards."

The IICRC certification validates that RestoPros of Charlotte meets rigorous industry standards for technical expertise, ethical business practices, and ongoing professional development in damage restoration services.

This achievement reinforces the company's commitment to delivering the highest quality restoration services while adhering to established industry protocols and best practices.

The IICRC certification process requires restoration companies to demonstrate proficiency across multiple service areas, including water damage restoration, fire and smoke damage restoration, mold remediation, and storm damage restoration. Companies must also commit to ongoing education and adherence to a strict code of ethics that prioritizes customer service and professional integrity.

RestoPros of Charlotte provides comprehensive damage restoration services available 24 hours a day, seven days a week. The company's service portfolio includes water damage cleanup for pipe bursts and flooding incidents, fire and smoke damage restoration, professional mold remediation, and storm damage repairs. With 30 years of combined industry experience, the team responds to emergencies promptly while maintaining strict adherence to safety protocols and restoration standards.

The certification comes at a time when property owners increasingly seek restoration companies that demonstrate verified expertise and professional credentials. IICRC certification provides third-party validation that restoration technicians possess the necessary training to properly assess damage, implement appropriate restoration techniques, and work effectively with insurance providers throughout the claims process.

"This certification enhances our ability to serve both residential and commercial clients who require immediate, professional restoration services," added Farrell. "Property damage creates tremendous stress for owners, and knowing that certified professionals are handling the restoration process provides essential peace of mind during difficult situations."

RestoPros of Charlotte maintains full insurance coverage and offers free inspections with detailed quotes for all restoration projects. The company provides scheduled maintenance visits and works directly with property owners to ensure projects are completed on time and within budget. All restoration work follows IICRC guidelines for safety, efficiency, and quality assurance.

The company specializes in emergency response services for water damage, fire and smoke damage, mold growth prevention and remediation, and storm-related property damage. RestoPros of Charlotte serves residential homeowners, commercial property managers, and business owners throughout the Charlotte metropolitan area.
