

SoulsticeWellness.com Announces New Enhanced Services for Medical Massage Therapy Denver

March 01, 2016

March 01, 2016 - PRESSADVANTAGE -

SoulsticeWellness.com is a medical-alternative recuperation clinic that is set on presenting therapies that expedite the healing process of sick individuals, specifically those who recently underwent surgery. Continuing to promote their combinational field of holistic wellness and science, they present their enhanced services for Medical Massage Therapy.

Soulstice Wellness? Medical Massage Therapy aims for two things for every patient: pain alleviation and faster recuperation. Another term for this method they use is the Peri-Operative Therapy. Through the utilization of gentle techniques, their professional therapists perform the procedures that assist in the urgency of their clients? healing process after going through an invasive operation.

This therapy offering facility?s version of Medical Massage is classified into two procedures: facial and body. Facial treatment is centered on clients who went through facial cosmetic operations. Examples of these are Rhinoplasty, Rhytidectomy, Blephoraplasty, and facial reconstruction surgeries. Body treatments are for patients who have gone through body contouring operations like Liposuction, Brachioplasty, Abdominoplasty, and ?Mommy Make-Overs,? and patients who went through situation-oriented operations like C-Section and

Orthopedic Surgery.

Anchored on the medical fact that invasive operations bring about a traumatic experience in the body, Soulstice's Medical Massage Therapy Denver acknowledges their specialization in how delicate their services are. This means that their professionals understand the risk of causing harm upon their clients, but are able to find a meaningful workaround that will not further complicate their concerns. Instead, they offer fast relief through their therapeutic sessions.

For those who are not aware, the therapists at Soulstice Wellness are well-equipped and fully trained to handle such delicate sessions. Moreover, the company is approved as a continuing education provider by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB).
