

Meet Dr. Kingsley: Vision Specialists Expands Papillion Eye Care Team

October 15, 2025

PAPILLION, NE - October 15, 2025 -
Vision Specialists, a leading provider of eye care in Nebraska, is pleased to announce the addition of Jonathan Kingsley, O.D., to its Papillion office. Dr. Kingsley is an experienced optometrist who brings a passion for patient-centered care and a commitment to helping patients of all ages achieve better vision. He began seeing patients this week at the Papillion location and is now accepting new and returning patients.

?Dr. Kingsley is a phenomenal addition to our team,? said Dr. Jordan Kieth of Vision Specialists. ?He has a strong background in primary eye care and a compassionate chairside manner that?s a perfect fit for our community. We?ve been looking to expand our care team in Papillion, and we?re confident Dr. Kingsley is the right choice to help meet the growing needs of our patients.?

Originally from Elkhorn, Nebraska, Dr. Kingsley earned his Bachelor of Science in Biology from Nebraska Wesleyan University before earning his Doctorate of Optometry from Southern College of Optometry in Memphis, Tennessee. He has extensive clinical training in managing dry eye, ocular disease, and contact lens care, and he is particularly passionate about helping patients understand their overall eye health ? not just their prescription.

Dr. Kingsley?s clinical approach is centered on long-term relationships and patient education. He believes that excellent eye care begins with listening. During his training, he completed rotations in advanced ocular disease, pediatrics, and surgical co-management, giving him the tools to provide full-scope optometric services to patients across all age groups. From comprehensive eye exams to contact lens fittings and disease management, Dr. Kingsley is prepared to help patients maintain clear, comfortable vision.

?I want patients to feel heard,? said Dr. Kingsley. ?Whether someone?s here for a routine exam or struggling with something more complex like dry eye or diabetic eye disease, they deserve to know what?s going on and how we can help. My goal is always to explain things clearly and give people the support they need to take charge of their eye health.?

Vision Specialists is known for its commitment to advanced technology and high-quality eye care services. The Papillion location is equipped with diagnostic tools designed to detect and manage a wide range of eye health conditions, including glaucoma, macular degeneration, dry eye, and digital eye strain. With Dr. Kingsley now part of the team, Vision Specialists is expanding its ability to provide timely, personalized care to even more patients in the region.

?We take pride in being a trusted eye care provider throughout Nebraska,? added Dr. Kieth. ?Our mission is to bring the best optometrists to the communities we serve, and Dr. Kingsley?s expertise allows us to continue that mission right here in Papillion.?

Dr. Kingsley?s appointment comes at a time of growth for Vision Specialists, as more Nebraskans seek accessible, high-quality vision care closer to home. His addition to the Papillion office means shorter wait times, increased availability for appointments, and an even stronger focus on preventative eye care and early detection.

Vision Specialists is currently accepting appointments with Dr. Kingsley at the Papillion location. New and existing patients can schedule online at https://www.visionspecialists.com or by calling the office directly.
