

Papillion Eye Care Practice Welcomes Dr. Jonathan Kingsley This Week

October 22, 2025

PAPILLION, NE - October 22, 2025 -
A familiar face is returning to Nebraska to serve the community where he got his start. Vision Specialists has announced that Jonathan Kingsley, O.D., has officially joined their care team and will be seeing patients at their Papillion office starting this week. A Nebraska native with a passion for people-first care, Dr. Kingsley is now accepting appointments and looking forward to serving families in the area.

?Dr. Kingsley is a phenomenal addition to our team,? said Dr. Jordan Kieth of Vision Specialists. ?He has a strong background in primary eye care and a compassionate chairside manner that?s a perfect fit for our community. We?ve been looking to expand our care team in Papillion, and we?re confident Dr. Kingsley is the right choice to help meet the growing needs of our patients.?

Raised in Elkhorn and trained at both Nebraska Wesleyan and the Southern College of Optometry, Dr. Kingsley brings advanced clinical experience and a neighborly, approachable style to the exam room. His areas of focus include dry eye, contact lens care, and helping patients of all ages understand their eye health and vision needs.

Dr. Kingsley?s interest in optometry started early, and his training reflects a well-rounded foundation in everything from pediatric eye care to complex disease management. After years of education and clinical rotations, he?s returned to Nebraska with a clear mission: to serve local families with compassion, precision, and trust.

?I want patients to feel heard,? said Dr. Kingsley. ?Whether someone?s here for a routine exam or struggling with something more complex like dry eye or diabetic eye disease, they deserve to know what?s going on and how we can help. My goal is always to explain things clearly and give people the support they need to take charge of their eye health.?

The Papillion office of Vision Specialists has long served the community with full-scope eye care services, from annual eye exams and contact lens fittings to more advanced solutions for dry eye, eye disease, and surgical co-management. The addition of Dr. Kingsley strengthens the clinic?s ability to meet increasing patient demand and reduce appointment wait times ? while continuing the practice?s tradition of thorough, attentive care.

?Papillion is growing, and we want to grow with it,? added Dr. Kieth. ?Our focus has always been personalized eye care, and when we bring on a new doctor, we?re looking for someone who truly understands how to connect with people. Dr. Kingsley checks every box ? he?s a great fit for our team and for the families we serve.?

Dr. Kingsley is particularly interested in patient education. His style is built on clear communication and helping patients understand what?s happening with their eyes ? whether it?s managing a new prescription or catching early signs of eye disease before symptoms emerge.

When he?s not in the office, Dr. Kingsley enjoys spending time outdoors, staying active, and reconnecting with family and friends in the area. After training out of state, he says coming back to Nebraska feels like the right move ? both professionally and personally.

Vision Specialists in Papillion is now scheduling appointments with Dr. Kingsley. New and returning patients can book by calling the office or visiting https://www.visionspecialists.com.
