Evolve Therapy to Participate in Minnesota Marriage and Family Therapists Conference Practicum Fair

October 20, 2025

Plymouth, Minnesota - October 20, 2025 -
Evolve Therapy will participate in the Practicum Fair at the Minnesota Association of Marriage and Family Therapists Annual Conference on Wednesday, October 22nd, connecting with students seeking clinical training opportunities in marriage and family therapy. The event will take place at Delta Hotels by Marriott Minneapolis Northeast, bringing together twenty-two practicum sites and students from across Minnesota.

The Plymouth-based therapy practice will be represented by owner Renee Segal and Victoria Woodman, MS, who will meet with graduate students interested in practicum placements. The fair provides an essential networking opportunity for students pursuing careers in marriage and family therapy to explore training sites and learn about different clinical approaches and specializations.

"Participating in the MAMFT Practicum Fair allows us to connect with the next generation of marriage and family therapists while showcasing our commitment to clinical training and supervision," said Renee Segal, owner of Evolve Therapy. "We believe strongly in providing comprehensive training experiences that prepare students for successful careers in relationship and family counseling."

The practicum fair represents a critical component of the annual conference, addressing the ongoing need for quality clinical training sites in Minnesota. As the demand for mental health services continues to grow, particularly in the areas of couples and family therapy, establishing strong connections between training programs and clinical sites becomes increasingly important.

Evolve Therapy has established itself as a dedicated training site for emerging therapists, offering practicum and field placement opportunities alongside its clinical services. The practice specializes in Emotionally Focused Therapy for individuals, couples, and families, providing students with exposure to evidence-based treatment approaches.

The timing of the practicum fair aligns with the academic calendar, as many graduate programs require students to secure practicum placements for the upcoming semester. The event facilitates direct

conversations between students and potential supervisors, allowing both parties to assess compatibility and training opportunities.

Beyond the practicum fair, the MAMFT conference serves as Minnesota's premier professional development event for marriage and family therapists, featuring educational sessions, keynote speakers, and networking opportunities. The inclusion of the practicum fair demonstrates the organization's commitment to supporting the professional pipeline and ensuring quality training for future therapists.

Evolve Therapy is a Minnesota-based therapy practice specializing in Emotionally Focused Therapy for individuals, couples, and families. The practice offers comprehensive mental health services including relationship counseling, individual therapy, premarital counseling, and specialized treatment for affairs and addiction. In addition to clinical services, the practice provides supervision and training for therapists, practicum placements for graduate students, and low-cost therapy options to increase accessibility. Founded by Renee Segal, the practice maintains a strong commitment to both clinical excellence and the professional development of emerging therapists in the field of marriage and family therapy.
