West Coast Tire & Services Expands Auto Repair Services to South OC Residents

October 20, 2025

San Juan Capistrano, CA - October 20, 2025 -
West Coast Tire & Services, a certified GoodYear Auto Service Center based in San Juan Capistrano, has announced the expansion of its comprehensive automotive repair and maintenance services to residents of South Orange County California. The expansion represents a strategic move to better serve the growing South Orange County market with competitively priced alternatives to dealership service centers.

The expansion comes as the company continues to build on its reputation for providing professional automotive services at prices significantly lower than traditional car dealerships. Since 2006, the company has established itself as a trusted provider of both routine maintenance and complex repairs for foreign and domestic vehicles throughout the region.

"Our expansion to serve San Clemente residents reflects our commitment to making quality automotive care accessible to more communities in South Orange County," said Todd, a representative of West Coast Tire & Services. "We understand that dealership prices can be prohibitive for many vehicle owners, and

we're proud to offer the same level of expertise and service at more competitive rates."

The expansion to San Clemente, Dana Point, Rancho Mission Viejo etc. adds to the company's existing service area, which already includes San Juan Capistrano, and Ladera Ranch. This strategic growth allows more South Orange County residents to access professional automotive services without the premium pricing typically associated with dealership service departments.

The San Juan Capistrano-based facility offers a comprehensive range of services, including auto repair, diesel repair, tire services, engine rebuilding, suspension repair, and radiator repair. As a certified Good Year San Juan Capistrano service center, the company maintains dealer-level diagnostic equipment operated by ASE-certified technicians who stay current with the latest automotive technology and repair techniques.

"We've built our business on the principle that quality automotive care shouldn't come with dealership price tags," added Todd. "Our ASE-certified technicians have the training and equipment to handle everything from routine oil changes to complex engine rebuilds, all while maintaining transparent pricing that helps our customers make informed decisions about their vehicle maintenance."

The company's service offerings encompass both major and minor repairs, with specialized expertise in diesel maintenance and extensive diesel vehicle modifications including lift kits, tires, and wheels. Additionally, the facility performs factory-recommended maintenance schedules, helping vehicle owners maintain their warranties while avoiding dealership markups.

West Coast Tire & Services also provides financing options and works with extended warranty providers, making automotive repairs more accessible to customers facing unexpected vehicle issues. The company's state-of-the-art diagnostic equipment enables technicians to quickly identify problems and provide accurate repair estimates, reducing both diagnostic time and overall repair costs.

Since its establishment in 2006, West Coast Tire & Services has maintained its position as a certified GoodYear Auto Service Center Tire Dealer, combining the benefits of a national service network with the personalized attention of a local business. The company's commitment to honest, professional service has earned it a strong reputation throughout South Orange County for delivering quality repairs at fair prices.
