

Hola Weddings Expands All-Inclusive Destination Wedding Packages to Meet Growing Demand

October 27, 2025

ALBUQUERQUE, NM - October 27, 2025 -
Hola Weddings, a destination wedding travel agency, has expanded its portfolio of all-inclusive wedding packages across Mexico, Costa Rica, and the Dominican Republic in response to increasing demand from couples seeking affordable luxury ceremonies in tropical locations.

The expansion comes as destination weddings continue to gain popularity among couples looking to combine their celebration with a vacation experience for their guests. The agency now offers comprehensive packages at over 50 resort properties across seven Mexican destinations, three Dominican Republic locations, and throughout Costa Rica.

"We're seeing more couples recognize that destination weddings can actually be more affordable than traditional hometown celebrations while offering an unforgettable experience for everyone involved," said a Hola Weddings spokesperson. "Our expanded portfolio means we can match every couple with their ideal venue, whether they envision barefoot vows on a secluded beach or an elegant ceremony in a tropical

garden setting."

Hola Weddings' all inclusive destination wedding packages encompass ceremony coordination, reception arrangements, accommodation negotiations, and travel logistics for both the couple and their guests. Each package includes access to the company's destination wedding specialists who handle everything from securing group rates to coordinating resort tours and managing guest reservations through streamlined online tools.

The expansion particularly focuses on providing options across different budget ranges, from intimate elopements to large celebrations hosting 200 or more guests. Properties range from boutique resorts in Huatulco and Cozumel to expansive beachfront venues in Cancún, Riviera Maya, and Punta Cana.

As an LGBTQ+ friendly company, the agency ensures all recommended venues welcome and celebrate couples of all backgrounds. The team works closely with resort partners to guarantee inclusive experiences and appropriate ceremony options for every couple.

The company's approach centers on simplifying what can often become an overwhelming planning process. Their destination wedding specialists manage vendor communications, coordinate site visits, negotiate contracts, and handle the complex logistics of international travel arrangements. Couples receive personalized consultations to identify properties that match their vision, guest count, and budget requirements.

Recent industry data shows destination weddings accounted for around 20% of all marriages in 2024, with Caribbean and Mexican locations remaining the most popular choices for North American couples. The trend reflects changing priorities among millennials and Gen Z couples who prioritize experiences over traditional wedding elements.

Based in the United States and operating since its founding, Hola Weddings has coordinated hundreds of destination weddings across its partner properties. The agency maintains relationships with major resort brands and independent properties throughout Mexico's Pacific and Caribbean coasts, Costa Rica's diverse regions from beachfront to rainforest locations, and the Dominican Republic's renowned resort areas. The company provides comprehensive planning services through its team of destination wedding specialists who assist couples from initial consultation through post-wedding travel arrangements.
