All In Solutions Detox CA LLC Opens New Location at Former Circle of Hope Facility

October 24, 2025

RESEDA, CA - October 24, 2025 -
All In Solutions Detox Reseda has opened its doors at the former Circle of Hope property, bringing comprehensive addiction treatment services to the San Fernando Valley community. The facility represents the latest expansion of All In Solutions Behavioral Health's network of accredited treatment centers across California, New Jersey, and Florida.

Previously operating as Circle of Hope, the Reseda property has long served as a cornerstone of behavioral health care in the region. The transition to All In Solutions marks a continuation of quality addiction treatment services at this established location, now enhanced with the clinical resources and evidence-based protocols of the All In Solutions network.

"Our goal with All In Solutions Detox Reseda is to honor the legacy of care that began here when this property operated as Circle of Hope. By bringing this facility into the All In Solutions network, we've built upon that foundation with enhanced clinical oversight, modern therapeutic practices, and a compassionate, recovery-first environment. This new chapter allows us to continue serving the Reseda community with integrity, safety, and a renewed commitment to long-term healing," said Dennis Ryan, CEO of All In Solutions Behavioral Health.

The facility provides medically supervised detoxification services for individuals struggling with alcohol, opiates, benzodiazepines, methamphetamine, and cocaine dependencies. Each client undergoes a comprehensive medical evaluation upon admission, allowing the clinical team to develop personalized treatment plans that address both the physical and psychological aspects of addiction.

At All In Solutions Detox Reseda, clients can expect round-the-clock medical supervision during the withdrawal process, supported by a multidisciplinary team of physicians, nurses, and licensed therapists. The treatment approach combines medication-assisted treatment protocols with evidence-based therapeutic

interventions, including Cognitive Behavioral Therapy, trauma-informed counseling, and holistic wellness practices.

All In Solutions Detox Reseda continues the organization's commitment to providing multiple levels of care throughout the recovery journey. Following medically supervised detoxification, clients can transition seamlessly to residential treatment, partial hospitalization programs, or intensive outpatient services based on their individual needs and progress.

The facility also incorporates specialty treatment components designed to address the diverse needs of the recovery community. These include faith-based recovery options, integrated family therapy sessions, trauma-focused treatment protocols, and a comprehensive alumni support program that extends care beyond the initial treatment phase.

Insurance accessibility remains a priority for the organization. The facility accepts most private health insurance plans and provides complimentary benefits verification to help families understand their coverage options before beginning treatment.

All In Solutions Behavioral Health operates nationally accredited treatment facilities known for combining clinical excellence with compassionate, individualized care. The organization maintains a strong focus on evidence-based treatment methodologies while recognizing that each person's path to recovery is unique. The opening of the Reseda facility strengthens the company's presence in Southern California and expands access to quality addiction treatment services in the San Fernando Valley region.
