American Town Car Expands Services with Exclusive Wine Country Tours to Willamette Valley

October 23, 2025

Portland, Oregon - October 23, 2025 -
American Town Car, a Portland-based luxury transportation provider, has expanded its service offerings to include private wine tour experiences connecting Portland travelers with premier vineyards throughout the Willamette Valley. The expansion transforms traditional black-car service into curated leisure experiences featuring personalized itineraries and knowledgeable chauffeurs familiar with Oregon's celebrated wine culture.

The new wine tour service provides luxury transportation to boutique wineries across all of Portlant including Dundee, Newberg, and McMinnville, utilizing the company's fleet of luxury sedans, SUVs, and Mercedes Sprinter vans. Each vehicle offers a refined setting for exploring Oregon wine country, with professional chauffeurs managing all travel logistics from pickup through return.

"This expansion represents a natural evolution of our commitment to exceptional service," said the President of American Town Car. "Our clients have consistently requested a transportation solution that allows them to

fully immerse themselves in Oregon's wine culture without the concerns of navigation or driving. Our chauffeurs bring extensive knowledge of the region's wineries and can help craft memorable experiences tailored to each group's preferences."

The service addresses growing demand for premium wine tourism experiences in the Pacific Northwest, where the Willamette Valley has earned international recognition for its pinot noir and cool-climate varietals. Professional chauffeurs handle route planning, timing between tastings, and coordination with winery staff, enabling guests to focus entirely on their wine country experience.

American Town Car brings decades of experience in luxury transportation to this new venture, maintaining the same standards of professionalism, reliability, and attention to detail that have defined its airport and corporate transportation services. The company operates 24 hours daily, accommodating various scheduling preferences for wine tours ranging from intimate couples' excursions to small group celebrations.

The wine tour service includes access to both established estates and emerging boutique producers throughout the valley. Chauffeurs receive ongoing training about the region's wine heritage, seasonal highlights, and individual winery specialties, positioning them as knowledgeable guides rather than simply drivers.

Limo Service Portland OR has seen increased demand for specialized transportation options that combine luxury with local expertise. The expansion into wine tourism reflects broader trends in experiential travel, where visitors seek authentic, comfortable ways to explore regional attractions.

Based in Portland, American Town Car maintains a diverse fleet including Mercedes 580 sedans, Cadillac Escalades, Yukon Denalis, and Mercedes Sprinter vans. The company serves multiple areas throughout the Portland metropolitan region and beyond, including Beaverton, Hillsboro, Lake Oswego, Salem, and Vancouver. Known for its expertly trained chauffeurs and commitment to punctuality, the company has earned a reputation for excellence in private transportation services across various occasions including weddings, corporate events, airport transfers, and special celebrations.
