# Clear The Air Cooling & Heating Introduces the Clear Advantage Membership for Priority Service and Savings

*November 04, 2025*

November 04, 2025 -
Clear The Air Cooling & Heating has announced the launch of its new Clear Advantage Membership, a program designed to give homeowners faster service, greater savings, and ongoing protection for their HVAC systems. The membership offers exclusive benefits such as front-of-the-line scheduling, discounted repairs, extended warranties, and complimentary seasonal tune-ups ? all aimed at helping customers maintain reliable comfort and lower energy costs year-round.

The Clear Advantage Membership reflects the company?s ongoing commitment to helping Pearland, TX, and Greater Houston Area homeowners take a proactive approach to home comfort and safety. Members enjoy guaranteed 24-hour emergency response times, reduced service fees, and access to a professional team of certified technicians trained to deliver high-quality maintenance and repair services across all major HVAC brands.

?Our customers want more than just repairs when something breaks,? said Jason Stom, company representative for Clear The Air Cooling & Heating. ?They want peace of mind, reliability, and a team

they can reach anytime. The Clear Advantage Membership was built around those needs, giving homeowners priority service, cost savings, and the assurance that their systems are always operating at peak performance.?

The membership includes two ?Factory Fresh? tune-ups each year ? one for cooling and one for heating ? to help extend system life and reduce unexpected breakdowns. Each inspection covers critical performance areas such as cleaning coils, checking refrigerant levels, inspecting blower components, calibrating thermostats, and testing electrical connections. These comprehensive visits not only improve efficiency but also ensure the system remains under manufacturer warranty coverage, which often depends on proof of regular maintenance.

In addition to preventive care, members receive substantial repair benefits. Each HVAC service repair is discounted by 15 percent, and the standard service fee is reduced to $49. Members also receive extended warranties on all repairs performed while their membership remains active, ensuring continued coverage for as long as their plan stays uninterrupted.

Beyond the mechanical benefits, the program delivers practical peace of mind for busy homeowners. With guaranteed scheduling priority, members can bypass long wait times during high-demand seasons, knowing their repair or installation will be handled quickly ? even on weekends and holidays. This level of service reliability is especially important during extreme Texas heat when HVAC demand is at its peak.

The Clear Advantage Membership also includes an Attic Efficiency & Safety Inspection, which evaluates insulation, ductwork, and air leaks to identify ways to improve energy performance. According to the U.S. Department of Energy, duct losses can account for more than 30 percent of energy consumption for space conditioning, especially when ducts run through unconditioned spaces such as attics. By identifying and correcting those issues, homeowners can improve comfort while reducing monthly energy costs.

?Preventive maintenance is one of the most effective ways to keep energy bills down and equipment running smoothly,? Stom added. ?We want to make that process easy and affordable for our customers. The Clear Advantage Membership takes the guesswork out of HVAC maintenance and rewards homeowners for being proactive.?

Stom also noted that the membership program reflects Clear The Air?s larger focus on building lasting relationships with its customers. ?Our goal has always been to provide long-term value ? not just a one-time repair,? he said. ?This membership makes it simple for families to plan their comfort needs, manage costs, and stay protected throughout every season.?

Additional benefits include priority installation for system replacements, transferable memberships for

homeowners who move within the company?s service area, and the opportunity to apply 100 percent of annual membership payments toward a full system replacement (or 50 percent toward partial upgrades such as ductwork or insulation).

Clear The Air Cooling & Heating has served the Greater Houston region since 1990, providing trusted HVAC installation, repair, and indoor air-quality solutions. The company is recognized for its commitment to dependable service, customer education, and long-term value.
