

FaithTime AI "Little Lamb": The Prayer App That Makes Daily Devotions Personalized in 2025

October 24, 2025

October 24, 2025 - PRESSADVANTAGE -

FaithTime AI, known by its signature companion "Little Lamb," is a prayer app and christian app designed for personalized daily spiritual practice. The platform combines AI-powered guidance with a gamified companion experience, where users grow their faith alongside an animated lamb that evolves with their spiritual growthjourney.

The app's core philosophy centers on "Light Devotion, Everyday Growth"?encouraging users to set simple daily goals like a short prayer or Bible verse. As users stay consistent with their spiritual practices, their Little Lamb companion grows and matures, providing gentle encouragement that makes devotion a light yet lasting habit. "The app is designed to make daily practice feel natural rather than burdensome," said Kyle Buss, Spokesperson for FaithTime AI. "The Little Lamb isn't just a mascot?it's a reflection of each user's faith journey. As you pray, read Scripture, and reflect, your lamb celebrates your progress and grows with you. It's a joyful reminder that faith is a journey, not a checklist."

FaithTime AI offers several integrated features designed for digital-native believers. The daily devotion app includes Devotion Tracking that helps users build a steady, devout routine with personalized prayer

reminders adapting to individual schedules. Day and night themes set the mood for prayer throughout the day, adjusting the app's visual appearance from morning to night. The animated Little Lamb companion cheers users on and celebrates milestones in their faith journey.

The platform includes "The Little Lamb's Prayer Community," described as a space where users can open up, ask for prayer, and lift others up. Users can share what's on their heart, join meaningful conversations, and offer encouragement through prayer in this moderated environment. "Ask Bible Chat" provides authoritative guidance, offering professional yet easy-to-understand answers about doctrine and Scripture to help clear doubts and deepen spiritual understanding. The bible study app features make Scripture accessible, with easy-to-use tools for accessing verses, taking notes, and exploring commentaries all in one place.

The app also includes daily devotions designed to help users strengthen their faith. Each day brings new insights, prayers, and reflections to support users' spiritual journey through consistent devotional practice. Whether users are beginners or seasoned believers, the platform aims to make studying the Bible accessible and engaging.

"We believe technology can be a tool for spiritual growth when guided by compassion and purpose," Kyle said. "Many believers today seek faith resources that integrate with their digital lives. FaithTime AI provides tools to incorporate Christian lifestyle practices into everyday routines." The AI devotional app uses adaptive technology that learns from user interactions to deliver increasingly relevant devotional content, Scripture suggestions, and prayer prompts. All content remains rooted in biblical teaching and Christian tradition. The app is available on both iOS and Android devices.

The app is designed to support users in building consistent faith habits through its various features. "We're providing a tool that functions as both a teacher and a companion," Kyle noted. "The goal is not to replace traditional forms of worship or community, but to supplement them with tools that fit the rhythms of modern life."

As digital faith tools continue to evolve in 2025, FaithTime AI is contributing to this evolution with its approach combining a daily devotion app, bible study app, AI devotional app, and faith community—all anchored by the Little Lamb companion that grows alongside each user's spiritual growth journey.

About FaithTime AI: FaithTime AI is a faith technology platform that creates a warm and mindful space for spiritual growth in the digital age. Known by its signature companion "Little Lamb," this prayer app and Christian app provides tools for Christian lifestyle practices. Through AI innovation, community-building, and
