

## **All Out Inspired Bike Phone Mount Now Offered At Sale Price**

*March 07, 2016*

March 07, 2016 - PRESSADVANTAGE -

All Out Inspired has decreased the price of their Bike Phone Mount for a limited time only. The sale price has gone into effect just recently, and will allow consumers to purchase the product for \$9.79, rather than the regular price of \$14.97.

Sold through the company's online sales channel at <http://www.amazon.com/Smartphone-Handlebar-Universal-Motorcycle-Silicone/dp/B016R1RBYS>, the device is available with no shipping cost, when buyers spend \$49 or more on their purchase.

Along with the new low price, shoppers can also read about the benefits of the product, the materials used in its manufacturing, and read the FAQs as posted by the company. All Out Inspired also asks that new customers leave some feedback on the page so that new shoppers can gain insight on how the Phone Mount works, and whether it would be a good fit for their bikes.

The Phone Mount provides cyclists the option of carrying their phone on the front of their bicycles, rather than in a pocket or purse. This offers access to GPS, music, or other apps and features which maybe required

while on the road. All Out Inspired has said the following regarding the product: "Whether you are a bike messenger in a busy city or a Sunday cyclist on your fat tire cruiser, this ingenious mounting device is destined to become your new best friend. Your smartphone or GPS will be securely held in place by a snug-fitting adjustable clamp and a 4-point silicone strap."

The company is hopeful that the new sale price will encourage customers who were sitting on the fence about the product to try it for themselves. Each purchase comes with a full five-year, money back, customer satisfaction guarantee, making it easy to commit to the purchase even at the regular cost.

For consumers who are interested in receiving this discount, the company suggests that they purchase the Bike Phone Mount as soon as possible. The sale will only continue for as long as the supply will last, and once the price reverts to the normal price, shoppers will have to wait for a future promotion to take place before being able to buy the device at this deal.
