Maltepe Dental Clinic Reports International Patient Referrals Following Dennis Schröder Treatment

October 30, 2025

ISTANBUL, TR - October 30, 2025 -
Maltepe Dental Clinic, a dental tourism facility operating for 22 years in Istanbul, Turkey, reported an increase in international patient referrals following the treatment of NBA player Dennis Schröder, who recently led Germany to the 2025 EuroBasket Championship and was named tournament MVP.

"The Dennis Schröder Patient Story represents a pattern we observe with international patients who travel to Istanbul for dental procedures," said Dr. Alper Gurhan, lead dentist at Maltepe Dental Clinic. "Professional athletes and other international clients often refer colleagues and family members following their treatments, which has contributed to our patient base expansion across multiple countries."

The clinic, which has treated over 14,000 patients from 85 countries, documented that Schröder, currently playing point guard for the Sacramento Kings and captain of the German national basketball team, underwent a Smile Makeover at their Istanbul location. Following his treatment, Schröder referred additional patients to the facility, including his friend, Joel, who received EMAX laminate veneers.

The clinic maintains ISO 9001:2015, ISO 13485:2016, and ISO 10002:2018 certifications and operates with six national and international inspection certificates. The facility includes an in-house laboratory for dental prosthetics and customization, allowing for control over the treatment process from initial consultation through final restoration.

Maltepe Dental Clinic became the first Turkish dental facility to establish operations in London, UK, while maintaining its primary location in Istanbul. The expansion occurred as part of the clinic's response to increased demand from European patients seeking dental tourism options.

"The Dennis Schröder Smile Makeover case demonstrates the intersection of sports medicine and dental health," explained Dr. Yusuf Ilhan, co-director at the clinic. "Athletes at the professional level often seek

dental treatments during their off-seasons, and Istanbul has emerged as a destination for such procedures due to the combination of certified facilities and geographic accessibility."

Since receiving treatment at the clinic, Schröder has continued exceptional success in his professional basketball career. Most recently, the Sacramento Kings' point guard led Germany to victory at the 2025 EuroBasket Championship in September and was named the tournament's MVP. His achievements also include earning bronze at the 2022 European Championship, leading Germany to the 2023 World Championship title, and serving as Germany's flag bearer at the 2024 Paris Olympics.

The facility's Google reviews indicate a 4.8 rating based on more than 322 reviews dating to the 2010s. The clinic specializes in cosmetic dentistry procedures, dental implants, and comprehensive Smile Makeover treatments for international patients.

Maltepe Dental Clinic operates from its Istanbul headquarters and London facility, offering dental tourism packages that combine medical procedures with cultural experiences in Turkey. The clinic's patient base includes individuals from Europe, the Middle East, and North America who travel to Istanbul for dental treatments.
