

Squat Rack and Power Cages Package Announced for Sale by Strongway Gym Supplies

October 24, 2025

Coventry, UK - October 24, 2025 -
Strongway Gym Supplies has announced the availability of its latest squat rack and power cage packages, designed to meet the growing demand from home gym users and fitness professionals across the UK. The company, known for supplying a wide range of quality gym equipment, has reported increasing interest in robust and adaptable strength training solutions suitable for personal and commercial fitness environments alike.

The newly announced range includes power cages and squat racks built to accommodate a complete strength training setup within a compact footprint. Each unit is designed with functionality, stability, and long-term performance in mind, allowing users to perform squats, bench presses, pull-downs, and other compound exercises with the support of an integrated frame. The introduction of these packages aligns with a wider shift towards comprehensive home fitness systems that deliver professional-grade performance without requiring large-scale gym spaces.

Among the standout additions to the catalogue is the Strongway Multi Gym Squat Rack Power Cage with Cable Pulley System, a piece of equipment that combines several workout features into a single station.

This model offers adjustable components, reinforced steel construction, and compatibility with both free weights and resistance-training accessories, making it a practical choice for those building a full-body home workout routine. Readers can view the full details of this model at: https://strongway.co.uk/products/strongway-multi-gym-squat-rack-power-cage-with-cable-pulley-system.

The growing appeal of multi-functional gym systems reflects an ongoing trend in the fitness industry: consumers are seeking durable, space-efficient setups that allow them to train effectively at home.

The Strongway Multi Gym Power Cage meets this demand by offering a combination of strength training functions within one compact and solid structure. Its dual cable pulley system provides versatility for targeting a range of muscle groups, while the power cage frame ensures a secure lifting environment.

In announcing the availability of these gym packages, Strongway Gym Supplies commented that the company?s focus remains on producing affordable yet long-lasting fitness solutions. Each rack and cage undergoes strict quality control and testing before distribution, ensuring that customers can rely on the equipment for consistent performance over time.

To complement the release, Strongway Gym Supplies has also expanded its collection of bundled fitness packages that bring together racks, benches, weights, and accessories. These package deals are curated for users who prefer a coordinated setup that delivers both value and convenience. Customers can explore the latest package options at: https://strongway.co.uk/collections/ultimate-package-deals.

The package deals include configurations suitable for both beginners and advanced trainers, offering a balanced combination of strength and conditioning tools. Each bundle is designed with attention to training variety, giving users the flexibility to perform resistance workouts, compound lifts, and targeted exercises with minimal equipment adjustments. This approach has made Strongway?s packages popular among those setting up home gyms and small training studios.

Strongway Gym Supplies continues to emphasise user confidence, durability, and adaptability in its designs. The latest equipment launches underline the company?s ongoing effort to provide functional solutions that support structured training programmes without compromising on build quality or safety standards. The inclusion of accessories such as adjustable cable pulleys and reinforced safety bars ensures that each product caters to users aiming for performance and precision.

For those looking to integrate the new range into their home or studio setup, the company has highlighted a

recently featured product update on its squat cage offering. The article provides further details on the equipment?s key design elements, training benefits, and customer availability. Readers can access the full article on this squat cage.

As fitness habits continue to evolve in the UK, the demand for adaptable and compact gym systems has shown no sign of slowing down. Strongway Gym Supplies? announcement of its squat rack and power cage packages reflects both its responsiveness to current training needs and its reputation for offering practical fitness solutions to a broad customer base. The company?s latest additions are positioned to strengthen its place as a reliable provider of professional-quality gym equipment for individuals, home users, and commercial training environments alike.
