

The Slimee Expands Kids Birthday Party Offerings at Two Locations

November 04, 2025

Paramus, New Jersey - November 04, 2025 -
The Slimee, a slime-making entertainment company specializing in hands-on creative experiences, has expanded its birthday celebration offerings with enhanced party packages now available at both its Garden State Plaza and Paramus Park Mall locations in Paramus, NJ.

The expanded offerings accommodate larger groups and provide increased scheduling flexibility, with the Paramus Park Mall location now hosting fully private parties for up to 150 children any day of the week. The Garden State Plaza location continues to offer private parties for up to 40 children on weekends and semi-private options during weekdays.

Each Kids Birthday Party features guided slime-making activities where children create their own customized 8-ounce fluffy slime under the supervision of trained facilitators. The comprehensive packages include all necessary materials such as aprons, safety goggles, and a selection of beads, charms, and glitter for personalization. Food service includes two large pizzas along with plates, napkins, and utensils, with parties

lasting between 1.5 to 2 hours.

The company's approach integrates science education with creative play, allowing children to learn about polymers and chemical reactions while enjoying a social experience. All ingredients used in the slime-making process are non-toxic and safe for children of all ages. Each participant takes home their personalized slime creation as a party favor, with additional custom slime jars available for purchase.

"Parents are seeking birthday celebration options that combine entertainment with educational value," said Zeynep Kocacal, founder of The Slimee. "Our expanded capacity and flexible scheduling at both locations allow more families to experience the creative engagement that DIY Slime activities provide while eliminating the stress of party planning and cleanup."

Beyond birthday celebrations, The Slimee offers various programs, including summer camps for children aged 4-9, off-site workshops for schools and private events, and drop-in studio sessions. The summer camp program spans 10 weeks and offers both full and half-day options featuring themed weeks and art projects alongside slime creation.

The expansion of party offerings comes as demand for interactive, educational entertainment continues to grow among families seeking alternatives to traditional celebration venues. The Kids Birthday Party Paramus, NJ packages address this need by providing a structured yet creative environment where children can engage in hands-on activities while celebrating special occasions.

The Slimee operates slime-making studios at two major shopping destinations in northern New Jersey, making its services accessible to families throughout the region. The company also provides off-site workshop services, bringing slime-making experiences directly to schools, camps, and after-school programs. Founded with the mission of combining creativity, education, and entertainment, The Slimee has established itself as a destination for unique children's experiences that blend scientific learning with artistic expression through the medium of slime creation.
