Niles Industrial Coatings Announces Integration of Emerging Technologies in Restoration and Industrial Services

October 27, 2025

FENTON, MI - October 27, 2025 -
Niles Industrial Coatings, LLC, a restoration and industrial services contractor in Fenton, MI, has announced the integration of emerging technologies into its comprehensive service offerings. This development aims to improve efficiency, safety, and quality for clients across various industries. By adopting advanced systems and partnerships, the company continues to address site-specific needs with precision and innovation.

The announcement reflects the company's ongoing commitment to continuous improvement. Niles Industrial Coatings leverages the latest technologies in field applications, supplier partnerships, and cost-accounting to deliver faster and safer results. This approach allows the company to handle projects of varying scales, from small maintenance tasks to large-scale restorations, while maintaining high standards of performance.

Services include a wide range of coatings such as industrial painting, vinyl ester, floor coatings, polyurea, and tank linings. The company also provides vapor blasting, lead abatement through methods like chemical stripping and wet abrasive blasting, and high-pressure hydro blasting up to 40,000 psi for cleaning. Fireproofing options encompass epoxy, intumescent, and cementitious applications with plural and single leg

capabilities.

In addition, Niles Industrial Coatings offers comprehensive roof restoration for metal, single-ply, and built-up systems, featuring a fluid-applied method that avoids tear-offs and minimizes disruptions. This system uses zero-VOC materials and instaset sprays for durability and UV stability. Abrasive blasting employs materials like garnet, black beauty, and aluminum oxide, while mechanical restoration covers HVAC testing, cleaning, and weatherproofing.

The company serves industries including power, water and wastewater, steel, manufacturing, pipeline and terminals, petrochemical, entertainment and sports, dams, and food and beverage. With a workforce that scales from 125 to 585 employees across 12 states, Niles Industrial Coatings draws on extensive experience to tackle industry-specific challenges.

Ryan Niles, CEO of Niles Industrial Coatings, stated, "Unlocking potential involves aligning our values of care, trust, and help with dedication to team growth and partner success. Through the integration of emerging technologies, the company enhances its ability to protect critical assets while delivering value-added solutions."

Tom Cummings, President of Niles Industrial Coatings, added, "The focus remains on providing the highest level of safety, performance, and quality. This technological integration supports clear expectations, accountability, and authentic feedback to drive self-directed growth across operations."

These enhancements build on the company's culture of safety, where it is viewed as a means to care for employees and clients alike. The team holds certifications from organizations such as AMPP, with over 20 members certified at NACE-1 level, four at NACE-2, and access to NACE-3 subcontractors. Additional qualifications include OQ training, OSHA 500, MUST, TWIC, and stand-by rescue services.

Niles Industrial Coatings operates nationwide, serving clients in all 50 states from its headquarters in Fenton, MI. The company's scalable operations ensure timely responses to client needs, whether for routine maintenance or complex restoration projects.

This initiative underscores the company's dedication to embracing systems engineering and partnerships that reduce costs and improve outcomes. By honing processes through each project, Niles Industrial Coatings positions itself to meet evolving industry demands.

Founded more than 80 years ago, Niles Industrial Coatings provides safe, economical, and value-added

solutions to clients in commercial, industrial, and chemical sectors. The company maintains strong relationships with Fortune 500 companies through its reputation for quality and extensive equipment inventory. Niles Industrial Coatings commits to doing things right, supporting team members, and encouraging learning from experiences to foster ongoing improvement.
