

egli jona ag Expands Landscape Design Services Across Lake Zurich Region in Switzerland

October 28, 2025

RAPPERSWIL-JONA, CH - October 28, 2025 -
egli jona ag, a premier landscaping company serving the Lake Zurich region for over seven decades, announces expanded capabilities in garden architecture and outdoor living space construction to meet growing demand for sophisticated landscape design throughout Switzerland.

The company, which employs 120 professional gardeners and landscape specialists, has enhanced its comprehensive outdoor space services to address the increasing complexity of modern garden projects in the Zürichsee area. This expansion encompasses advanced pool construction techniques, contemporary terrace designs, and large-scale commercial landscaping projects for architectural firms and general contractors.

Founded in Switzerland, the company focuses on both technical expertise and artistic vision. They combine traditional Swiss craftsmanship with innovative design approaches to create gardens and landscapes that serve as extensions of the buildings around them. Additional information about the company and its services

can be found at https://eglijona.ch.

The company's showroom garden in Aathal showcases the breadth of possibilities available to property owners, featuring seven distinct pool designs, various hardscaping materials, and diverse planting schemes. This demonstration space allows clients to experience different design elements firsthand before incorporating them into their own properties.

egli jona ag provides complete project management from initial concept through ongoing maintenance. The company's planning and design team collaborates closely with clients to develop customized solutions that reflect individual preferences while maximizing the potential of each outdoor space. Services range from intimate residential gardens to expansive commercial landscapes, with each project receiving the same attention to detail and commitment to quality.

The firm's approach integrates multiple disciplines within landscape architecture. Pool construction projects incorporate surrounding garden elements to create cohesive outdoor environments. Terrace installations transform underutilized spaces into functional outdoor rooms suitable for Switzerland's varied climate conditions. Garden maintenance programs ensure that completed projects retain their beauty and functionality throughout changing seasons.

Recent projects demonstrate the company's versatility in addressing diverse landscape challenges across the Lake Zurich region. From steep lakeside properties requiring specialized engineering solutions to urban gardens maximizing limited space, egli jona ag applies decades of accumulated expertise to each unique situation.

The company maintains strong partnerships with architectural firms and general contractors throughout Switzerland, providing landscape solutions for residential developments, commercial properties, and public spaces. These collaborations ensure that outdoor environments complement architectural designs while meeting practical requirements for drainage, accessibility, and long-term sustainability.

egli jona ag continues to invest in advanced equipment and training for its workforce, ensuring that the company remains at the forefront of landscape design and construction techniques. The firm's commitment to environmental stewardship influences material selection and planting choices, promoting biodiversity and resource conservation in all projects.

egli jona ag has served the Lake Zurich region since its founding over 70 years ago, establishing itself as a leading provider of comprehensive landscaping services. The company specializes in garden design and

construction, pool installation, terrace building, and ongoing garden maintenance for residential and commercial clients. The company's location can be found at https://maps.app.goo.gl/BaGKjVAvQCNnmcxJ7.
