

USA Sourced and Made Dog Jerky Treats Recipe are Both Safe and Yummy

March 03, 2016

March 03, 2016 - PRESSADVANTAGE -

Savvy Pet Products, makers of Simba's Choice USA sourced and made grain free, gluten free, no corn, wheat or soy, beef and chicken dog jerky treats were created in response of dog owners concerns about unsafe foreign ingredients affecting their prize pets.

"It's a minefield reading and interpreting labels on pet goods and treats," says Aisulu Gates, Co-Founder of Savvy Pet Products. "Made in the USA is a broad term and is sometimes used by shady manufacturers to confuse pet owners. The product may in fact be made in the USA. However, that does not mean that all the ingredients have been sourced in the USA. As a pet owner, we must all peel back the layers to really understand what we are feeding our pets."

Simba's Choice beef and chicken dog jerky treats are 100% sourced and made in the USA in an FDA approved facility in small batches to guarantee freshness. Each 16 oz meaty package is filled with premium beef and chicken, never any filler or artificial preservatives of any kind. In addition, Simba's Choice is grain free, gluten free and contains no corn, wheat or soy, which may be harmful to your dog. Each 7 inch rolled stick is soft, tender meaty goodness packed with nutritious protein with natural sweet potatoes, a taste your

dog will love. Simba's choice dog jerky treats are available for short time on a buy one, get one free offer.

Simba's Choice beef and chicken dog treats are both tasty and safe, reports Gates. Loyal clients send wonderful videos of their dogs doing crazy things for more treats. Each stick is tender and can be broken into smaller pieces, which are great for training and also easy to travel with. Your dog will know what is in your travel bag!
