

Hannah Restoration Expands Local Services to Better Serve Customers

October 29, 2025

HENDERSONVILLE, TN - October 29, 2025 -
Hannah Restoration, a family-owned disaster cleanup company serving Middle Tennessee for over 30 years, has expanded its local service capabilities to better serve residential and commercial property owners throughout the region. The expansion enhances the company's ability to respond to disasters within 30 to 60 minutes, providing critical support when property owners need it most.

"Property disasters don't follow a schedule, and neither do we," said Justin Hampton, Owner of Hannah Restoration. "By expanding our emergency response capabilities, we're ensuring that families and businesses throughout Middle Tennessee have access to professional restoration services exactly when they need them. Whether dealing with a burst pipe at midnight or storm damage on a holiday weekend, our teams are ready to respond."

The expanded services strengthen the company's comprehensive disaster recovery offerings, which include reconstruction, water damage restoration, mold remediation, fire damage restoration, crime scene cleanup,

lead paint removal, asbestos removal, and roofing services. With IICRC-certified technicians available around the clock, the company has positioned itself to address the growing demand for rapid disaster response across Middle Tennessee.

The expansion comes as Middle Tennessee continues to experience growth in both residential and commercial development. Weather-related incidents, aging infrastructure, and the increasing complexity of modern buildings have created a greater need for specialized restoration services. The company's enhanced capacity allows it to maintain its commitment to rapid response times while serving a broader geographic area.

Water damage restoration remains one of the most critical services the company provides, addressing everything from broken pipes and appliance failures to storm damage and flooding. The company's technicians utilize advanced water extraction equipment and drying techniques to minimize property damage and prevent secondary issues such as mold growth. Beyond water mitigation, the team handles basement water damage, crawl space water damage, slab water damage, and various other water-related emergencies.

The company's comprehensive approach extends beyond immediate emergency response. Hannah Restoration assists property owners throughout the entire restoration process, from initial assessment through complete reconstruction. The company provides free on-site inspections and works directly with insurance companies to streamline the claims process, reducing stress for property owners during challenging times.

"Our goal has always been to restore not just properties, but peace of mind," Hampton added. "This expansion allows us to bring that same level of care and expertise to more communities across Middle Tennessee. We understand that experiencing property damage can be overwhelming, and we're committed to making the restoration process as smooth as possible."

Hannah Restoration serves numerous communities throughout Middle Tennessee, including Antioch, Belle Meade, Bellevue, Brentwood, Cottontown, Dickson, Donelson, Forest Hills, Franklin, Gallatin, and Goodlettsville. The company maintains a 4.6 rating based on more than 70 customer reviews, reflecting its commitment to quality service and customer satisfaction. As a locally owned business with three decades of experience, Hannah Restoration combines deep community roots with industry-leading restoration techniques and equipment.
