

Keathley Landscaping Expands Retaining Walls and Custom Stonework Services Across North Texas

November 20, 2025

GARLAND, TX - November 20, 2025 - PRESSADVANTAGE -

Keathley Landscaping, a Dallas-based landscape design and installation company, has expanded its specialized hardscaping services throughout North Texas, with enhanced capabilities in yard drainage solutions and outdoor living space construction. The expansion addresses growing demand for professional landscape drainage and custom masonry work across Dallas, Parker, Rockwall, and surrounding communities.

The company's expanded service offerings focus on comprehensive solutions for homeowners facing drainage challenges and those seeking to enhance their outdoor spaces with professional stonework. As a NDS Certified Drainage Contractor, the company now provides advanced drainage system design and installation alongside its established masonry and hardscaping services.

"Complex drainage problems require both technical expertise and practical experience to solve effectively," said Logan Keathley, NDS Certified Drainage Contractor and owner of Keathley Landscaping. "We've expanded our capabilities to address everything from simple grading issues to installing large-scale, custom-designed buried drainage systems. Our approach combines innovative drainage solutions with aesthetic improvements through custom stonework and hardscaping."

The expansion encompasses several specialized service areas. For yard drainage, the company offers French drain installation, comprehensive grading solutions, channel drain systems, and custom-designed buried drainage pipes. These services address flooding concerns that can lead to costly property damage not typically covered by homeowner insurance policies.

In the realm of custom stonework, Keathley Landscaping provides both natural and modern options, including flagstone installation, flagstone overlays, modern paver systems, and veneer installation. The company specializes in creating outdoor living spaces featuring outdoor kitchens, fireplaces, fire pits, and

professionally designed patios and decks.

For structural landscaping needs, the company constructs retaining walls that serve both practical and aesthetic purposes. These installations help manage elevation changes, prevent erosion, and create defined spaces within residential landscapes. The company also installs decorative flowerbed borders and various hardscape surfaces that enhance property appearance while providing functional benefits.

"Property owners often don't realize how interconnected drainage and hardscaping elements are in creating a successful landscape," added Keathley. "Properly designed retaining walls can redirect water flow, while strategic stonework placement can actually improve drainage patterns. Our integrated approach ensures that aesthetic improvements also contribute to better water management."

The expanded services complement Keathley Landscaping's existing offerings, which include sod installation, landscape lighting, fence repair and installation, patio covers, and tree trimming services. The company maintains a focus on providing reliable, affordable solutions tailored to each property's specific requirements.

Keathley Landscaping has served the Dallas metropolitan area since 2002, establishing a reputation for quality landscape design and construction services. The company operates throughout North Texas, including service areas in Preston Hollow, Lakewood, Lake Highlands, Highland Park, Allen, Fate, Frisco, Garland, Lavon, McKinney, Plano, Richardson, Rockwall, Rowlett, Sachse, Murphy, Lucas, Fairview, and Wylie. As a full-service landscape provider, the company combines traditional craftsmanship with modern techniques to transform outdoor spaces into functional and attractive environments.
