LawnWorks Announces Enhanced Digital Platform to Better Serve Lawn Care Communities Across Illinois

November 05, 2025

Crest Hill, IL - November 05, 2025 -
LawnWorks of Joliet, Inc., a family-owned lawn care company serving southwestern Illinois since 1988, today announced the launch of its redesigned website platform designed to streamline service access for residential and commercial customers throughout its expanding service territories.

The enhanced digital platform provides comprehensive information about the company's full range of lawn care services, including fertilization programs, weed control, aeration, pest management, and mosquito control solutions. The new website serves as a central resource for property owners across the LawnWorks lawn care service area, which encompasses Joliet, Plainfield, Naperville, Coal City, Wilmington, and numerous other communities throughout Illinois.

"After more than three decades of serving our communities, we recognized the need to modernize how customers interact with our services," said Josh Cull, Operations Manager at LawnWorks. "This enhanced platform reflects our commitment to making professional lawn care more accessible while maintaining the personalized service approach that has defined our company since 1988."

The website redesign comes as demand for professional lawn care services continues to grow across the region. Recent industry data indicates that homeowners increasingly seek comprehensive lawn care solutions that address multiple concerns, from basic fertilization to specialized pest control and disease management. The new platform allows customers to explore tailored service programs, request quotes, and access their accounts for convenient online payment processing.

LawnWorks offers several customizable lawn care programs designed to address the specific challenges faced by lawns in the Illinois climate. These programs incorporate controlled-release and organic-based fertilizers, targeted weed control applications, and seasonal treatments that promote healthy grass growth and root development. The company also provides specialized services, including core aeration,

overseeding, grub control, and weed management in garden beds.

The enhanced digital presence supports the company's mission to deliver professional lawn care solutions while maintaining strong community connections. As a locally owned business, LawnWorks understands the unique lawn care challenges faced by property owners in southwestern Illinois, from managing seasonal weather variations to addressing soil conditions specific to the region.

"Professional lawn care involves more than just applying treatments," added Cull. "It requires understanding local conditions, identifying specific lawn problems, and developing customized solutions. Our new platform helps us communicate this expertise more effectively while making it easier for customers to find the services they need."

The company continues to offer special programs for new customers, military personnel, and senior citizens, demonstrating its commitment to serving all segments of the community. With BBB accreditation and decades of experience, LawnWorks has established itself as a trusted provider of lawn care services throughout the region.

LawnWorks of Joliet, Inc. is a family-owned and operated lawn care company that has served southwestern Illinois communities since 1988. The company specializes in comprehensive lawn care programs, including fertilization, weed control, aeration, pest management, and mosquito control services.
