

EcoClean Restoration Expands Service Capabilities to Better Serve Customers

November 03, 2025

TIMONIUM, MD - November 03, 2025 -
EcoClean Restoration, a family-owned damage restoration company serving the Greater Baltimore area, has expanded its service capabilities to better meet the increasing demand for comprehensive restoration services across Maryland communities. The expansion enhances the company's ability to respond to emergency situations with improved equipment, streamlined processes, and expanded coverage areas.

The IICRC-certified restoration company has enhanced its operational capacity to serve Baltimore and surrounding communities, including Timonium, Columbia, Towson, Perry Hall, Owings Mills, Pikesville, Ellicott City, and Randallstown. The expansion addresses the growing need for rapid-response restoration services as property damage incidents continue to impact Maryland residents throughout the year.

"Our expansion represents our commitment to providing Baltimore-area property owners with faster, more comprehensive restoration services when they need them most," said Cali Wilson, Founder of EcoClean Restoration. "By enhancing our service capabilities and coverage areas, we can now reach more

communities within our 45-minute average response time, which is critical when dealing with water damage restoration and other emergencies."

The company's expanded services encompass water damage restoration, fire damage restoration, mold remediation, storm damage cleanup, and complete reconstruction services. With over six years of combined experience in the restoration industry, the company utilizes advanced equipment, including thermal imaging cameras for moisture detection, industrial-grade dehumidifiers, and antimicrobial treatments to ensure properties are thoroughly restored and safe for occupancy.

Recent industry data indicates that untreated water damage can lead to dangerous mold growth and structural deterioration within 24 to 48 hours, making rapid response essential for property preservation. The expansion enables the company to deploy restoration teams more efficiently across the Greater Baltimore region, reducing the risk of secondary damage and minimizing restoration costs for property owners.

The enhanced service capabilities also include improved insurance claim assistance, utilizing Xactimate pricing software to streamline the claims process and reduce out-of-pocket expenses for clients. The company accepts all major insurance providers and offers direct billing services to simplify the restoration process for property owners dealing with unexpected damage.

"Property damage can be overwhelming for homeowners and business owners alike," added Wilson. "Our expanded services ensure that we can handle everything from initial assessment and emergency water extraction to complete structural rebuild, providing a single point of contact throughout the entire restoration process."

EcoClean Restoration maintains 24/7 emergency response capabilities, recognizing that property damage does not adhere to regular business hours. The expansion strengthens the company's ability to respond to multiple simultaneous emergencies, particularly during severe weather events that can impact numerous properties across the region.

EcoClean Restoration is a family-owned, IICRC-certified damage restoration company serving the Greater Baltimore area and surrounding Maryland communities. The company specializes in water damage restoration, fire damage restoration, mold remediation and testing, storm damage cleanup, and reconstruction services. Operating 24/7 for emergency response, the company provides comprehensive restoration solutions with a satisfaction guarantee and works directly with all major insurance providers to streamline the claims process for property owners.
