

West Coast Tire & Services Expands Auto Repair Services to Dana Point and San Clemente Communities

November 17, 2025

San Juan Capistrano, CA - November 17, 2025 -
West Coast Tire & Services, a certified GoodYear Auto Service Center based in San Juan Capistrano, announces expanded service coverage to include San Clemente and Dana Point residents, offering competitive alternatives to dealership pricing for comprehensive automotive maintenance and repair services.

The expansion comes as the company responds to growing demand from South Orange County vehicle owners seeking professional automotive services at more affordable rates than traditional dealership options. The company, which has been serving the San Juan Capistrano area since 2006, maintains ASE-certified technicians and state-of-the-art diagnostic equipment to service both foreign and domestic vehicles.

"Our expansion into San Clemente and Dana Point represents our commitment to making quality automotive care accessible to more South Orange County residents," said Todd, a spokesperson from West Coast Tire & Services. "We understand that dealership prices can be prohibitive for many vehicle owners, which is why we focus on delivering the same level of expertise and service at significantly more competitive rates."

The company offers comprehensive automotive services, including engine rebuilding, suspension repair, diesel maintenance, brake repair, cooling system services, and tire repair. As a certified Good Year San Juan Capistrano service center, the facility combines the resources of a national tire manufacturer with personalized local service.

West Coast Tire & Services distinguishes itself through its use of dealer-level diagnostic equipment and factory-trained technicians who can perform manufacturer-recommended maintenance schedules. The company works with extended warranties and offers financing options to help customers manage repair costs.

The expansion addresses a common concern among vehicle owners about the high costs associated with dealership service departments. By offering the same factory maintenance schedules and repair capabilities at lower prices, the company provides an alternative that doesn't compromise on quality or expertise.

"We've built our reputation on honest, professional service over the past 18 years," added Todd. "Our expansion allows us to bring that same level of service to neighboring communities that deserve affordable access to quality automotive care."

The company's service capabilities extend beyond routine maintenance to include specialized services such as lift kit installations for light truck gas & diesel vehicles, wheel balancing, fuel injector cleaning, and auto air conditioning repair. Their technicians hold Automotive Service Excellence certifications, ensuring adherence to industry standards for all repairs and maintenance work.

West Coast Tire & Services operates as a full-service automotive facility, handling everything from minor repairs to major engine overhauls. The company's certification as a GoodYear Auto Service Center provides customers with warranty-backed tire services alongside comprehensive mechanical repairs. Since 2006, the company has established itself as a trusted automotive service provider in San Juan Capistrano, building a reputation for combining technical expertise with transparent pricing and customer-focused service.
