

Kustomz Truck & Auto Announces Service Expansion to Address Growing Regional Demand

November 18, 2025

Rapid City, SD - November 18, 2025 - PRESSADVANTAGE -

Kustomz Truck & Auto, an auto body and customization shop serving Rapid City and western South Dakota, announced today the completion of a service expansion that adds new repair capabilities and equipment to address increased demand for collision repair and vehicle restoration services in the Black Hills region.

The expansion includes the addition of computerized paint matching systems, and aluminum body panel repair equipment. The facility has also expanded its capacity to handle fiberglass and gel coat repairs for marine vessels and recreational vehicles, addressing a gap in regional service availability.

"We've completed significant infrastructure improvements and equipment acquisitions to accommodate the evolving needs of vehicle repair in our region," said Steve Darling of Kustomz Truck & Auto. "Modern vehicles require specialized equipment for proper repair, particularly with the increasing use of aluminum construction and integrated safety systems."

The expansion responds to data showing increased service demand following severe weather events that have impacted the region over the past eighteen months.

Why Choose Kustomz Truck & Auto In Rapid City South Dakota has become a consideration for vehicle owners seeking comprehensive repair services under one roof. The facility now handles paintless dent repair, structural repairs, classic car restoration, and custom modifications including lift kit installations and six-door conversions.

The shop has added two additional technicians to its staff and implemented new training protocols focused on aluminum repair techniques. These additions enable the facility to service a broader range of vehicle types while maintaining manufacturer repair specifications.

Best Auto Body Repair In Rapid City South Dakota practices now include frame straightening verification and post-repair safety system calibration. The facility has documented repair processes that meet insurance requirements and manufacturer guidelines for structural repairs.

"The technical requirements for proper collision repair have changed significantly with newer vehicle construction methods," Darling noted. "Our expansion ensures we have the necessary tools and training to properly repair vehicles while maintaining safety standards."

The expansion also addresses classic car restoration services, with dedicated workspace for frame-off restorations and custom fabrication projects. The shop has invested in specialized welding equipment and metal forming tools to accommodate vintage vehicle repair needs.

Auto Body Repair Experts In Rapid City have noted industry-wide challenges in keeping pace with rapidly changing vehicle technology. The shop's expansion positions it to handle repairs on vehicles equipped with advanced materials and integrated technology systems that require specialized knowledge and equipment.

The facility now offers marine and RV repair services alongside traditional automotive work, utilizing the same fiberglass repair techniques and gel coat restoration processes. This service addition addresses previously limited options for boat and RV owners in the western South Dakota region.

Kustomz Truck & Auto operates from its Rapid City facility and serves customers throughout western South Dakota and neighboring states. The company specializes in collision repair, vehicle customization, marine and RV repair services, and complete vehicle restoration projects. The business has operated in the

Rapid City area for over fifteen years.
