

All In Solutions California Expands Personalized Recovery Plans Through Specialized Treatment Tracks

November 20, 2025

SIMI VALLEY, CA - November 20, 2025 -
All In Solutions California, a premier addiction treatment center serving the region, has expanded its specialized treatment tracks to provide more individualized pathways for clients seeking recovery from substance use disorders. The expansion addresses the diverse needs of individuals by offering trauma-focused therapy and holistic healing options, alongside core evidence-based treatment services.

The enhanced program structure recognizes that recovery is not a one-size-fits-all journey. Different individuals require different approaches based on their unique experiences, beliefs, and personal goals. By offering multiple specialized tracks, the treatment center enables clients to engage with recovery in ways that align with their values and life experiences.

"Personalized care empowers clients to engage with treatment in ways that resonate deeply with their values and experiences. This approach builds long-term commitment to recovery," said Chanelle Sukiasyan, Group Facilitator, RADT.

All In Solutions California in Simi Valley, California, integrates these specialized tracks with established outpatient services, including group therapy, relapse prevention education, and individualized counseling sessions. The comprehensive approach ensures that each client receives both evidence-based treatment and personalized support tailored to their specific circumstances.

The specialized tracks complement the organization's existing continuum of care, which includes medical detoxification, residential treatment, partial hospitalization programs, and intensive outpatient services. For individuals transitioning from medical detox, these specialized programs provide meaningful continuity in their recovery journey while maintaining focus on their individual needs and preferences.

The expansion of specialized tracks strengthens the treatment center's ability to serve diverse populations throughout California. By recognizing that each person's path to recovery is unique, the facility demonstrates its commitment to meeting clients where they are in their journey and providing the specific support they need to achieve lasting sobriety.

All In Solutions California outpatient programs now feature enhanced flexibility, allowing clients to select treatment components that best support their recovery goals. The trauma-focused therapy addresses underlying traumatic experiences that may contribute to substance use disorders. The holistic healing options integrate alternative therapeutic approaches with traditional evidence-based methods.

All In Solutions California is a premier addiction treatment center that offers evidence-based care for substance use and co-occurring mental health disorders. The All In Solutions as a whole organization provides a comprehensive range of services, including addiction treatment for various substances, medical detoxification, residential treatment, partial hospitalization programs, and intensive outpatient programs. Additional specialty components include integrated family therapy, trauma-focused treatment, and alumni support programs. The treatment center works with most private health insurance plans and offers free, confidential insurance benefit reviews to help determine coverage options for prospective clients seeking treatment.
