

Zeva Natural Nails Offers Full Line of Natural Nail Care Products

March 10, 2016

March 10, 2016 - PRESSADVANTAGE -

Zeva Natural Nails, occupying an office space in Medicine Lake Property, announces a full line of natural nail care products, including Zeva's Cuticle Oil Pen.

Zeva Natural Nails was created by Michael Rodich after spending years searching for healthy, natural nail care products to help solve his nail-biting habit. Finding that most nail care products didn't deliver the transformational results they promised, Michael created the Zeva Natural Nail Care System, an easy-to-use line of natural nail care products for women and men.

"My goal in creating the Zeva Natural Nail Care System was to share the news that you can have beautiful nails without sacrificing your health," says Rodich.

Zeva's Cuticle Oil Pen provides intensive, deeply penetrating moisturizer for cuticles and conditioner for nails. It contains 14, all-natural, essential oils and vitamins that are specifically formulated to soothe and repair dry, cracked cuticles and strengthen nails.

A moisturizing treatment for dry, damaged cuticles that's easy-to-use, absorbs quickly and smells wonderful. Zeva's Cuticle Oil Pen contains more high-quality oil than other brands. With a light press against your cuticles, Zeva's Cuticle Oil Pen releases a powerful treatment that conditions and soothes dry cuticles. Zeva's convenient pen-style applicator makes it very easy to take everywhere and you will never spill a single drop.

Zeva's 100% natural formula leaves cuticles soft and healthy and is formulated with fourteen natural oils and vitamins, including: vitamins A and E, argan, borage, apricot kernel, almond, wheat germ, sesame, tea tree, grape seed, jojoba and evening primrose oil. The cuticle oil pen has a no-spill applicator that makes this intensive, non-greasy, deep-conditioning cuticle treatment easy-to-apply and easy-to-carry. Take it anywhere for soothing relief from dry and cracked cuticles, it's great for toenails, too.

For healthy fingernails, pamper them daily with a gentle buffing or a massage. This increases circulation to

the nails, keeping them from cracking and peeling.

One of their most popular products, Zeva's Austrian Crystal File is an all-natural fingernail file, made in the USA, from extremely fine crystals that gently shapes and completely smooths nail tips and removes dry skin around the nails. Regular use seals the tips of your fingernails and toenails, strengthening them and promoting healthy nail growth. The rounded ends of Zeva's Austrian Crystal File are specifically designed to gently push back and erase excess cuticle.

JGM Properties provides office and warehouse space in Plymouth for lease to Zeva Natural Nails. JGM also provides office, warehouse, and retail space for lease in Minnesota, all over the Twin Cities area. JGM Properties owns and manages Medicine Lake Property, as well as 23 other suburban Minneapolis warehouse space and office space properties.
