

AC Insurance Services Launches New Options For Business Liability Insurance

March 18, 2016

March 18, 2016 - PRESSADVANTAGE -

AC Insurance Services, an insurance agency located in West Palm Beach, Florida, has announced new options for those seeking business liability insurance. The agency is now underwriting GL or general liability policies for business owners. Pete Steiner, an agent with the insurance agency, states, "A general liability policy will cover certain incidents of property damage or bodily injury inside your business."

Pete Steiner explains that business owners who do not have this coverage should seriously consider it, as failure to have it could result in massive financial difficulties if and when a certain situation suddenly occurs.

"Imagine if someone gets hurt on your business property," Steiner says. "Now, what if you don't have coverage for that. You will be forced to pay those medical bills out of pocket, which could be a big financial burden for your company, severely affecting your bottom line."

Steiner points out that failure to have adequate coverage has caused many businesses to file bankruptcy.

Fortunately, AC Insurance Services can help business owners to avoid this fate with their new line of policies. The new policy can be purchased as standalone coverage, or in some cases, could also be combined with current property owner's insurance for a business owner's policy. In whatever form it is obtained, Steiner states that this type of coverage is crucial for businesses.

The company states that every business should have adequate coverage to protect the owner and the business itself from paying extensive damages to persons or property in the event a situation happens that is beyond the business owner's control. Steiner states that without adequate coverage, trouble is simply waiting to happen.

"You just never know when something catastrophic is going to take place," he states. "You need to always, always be prepared and this new policy is exactly the type of preparation that we feel businesses need."

Those interested in learning more can visit the insurance agency on their official website. Steiner states that they will provide a free quote for coverage for business owners who would like to weigh the cost of this new coverage. Quotes can be obtained by visiting the company on their website at <http://myacis.com/free-quotes/>.
