

USA Cabinet Store Expands Kitchen and Bathroom Remodeling Services to Alexandria Market

November 13, 2025

FAIRFAX, VA - November 13, 2025 -
USA Cabinet Store, a kitchen and bathroom remodeling company, announces its strategic expansion into Alexandria, Virginia, responding to increased demand for home improvement services as federal housing policy changes create new homeownership opportunities in the region.

The expansion comes as the federal government explores extended mortgage options designed to improve housing affordability, potentially allowing more families to enter the homeownership market. According to Bright MLS and Redfin data from October 2025, Alexandria's median home prices reached between $705,000 and $751,500, representing a 15.1 to 20.2 percent year-over-year increase. This environment is driving interest in renovations among both new homeowners and long-time residents..

"Alexandria represents a dynamic market where homeowners understand the value of quality renovations," said Emin Halac, President of USA Cabinet Store. "The 2025 Cost vs. Value Report shows bathroom remodeling delivering a 73.5 percent return on investment and kitchen renovations averaging $50,000 to

$75,000 in Northern Virginia. Homeowners recognize these improvements as both lifestyle enhancements and sound financial decisions."

The company brings 14 years of expertise to the Alexandria market, having served more than 1,000 satisfied customers across six states since its founding in 2011. The expansion provides Alexandria residents with access to kitchen remodeling services, including custom cabinet installations, countertops, and complete design transformations that improve both functionality and appearance.

USA Cabinet Store's bathroom remodeling services include full and partial renovations, updated layouts, and fixtures designed to make better use of available space. The company specializes in creating functional layouts that enhance daily living experiences while maximizing available space through custom vanity installations and coordinated design elements.

The Alexandria expansion builds upon USA Cabinet Store's established presence in Virginia, where the company operates flagship showrooms in Fairfax and Chantilly. These facilities, part of a network of 13 showrooms nationwide, provide customers with opportunities to explore design options, view product displays, and receive professional consultations for their kitchen and bathroom remodeling projects.

"Our approach combines detailed design planning with coordinated project management," added Halac. "From initial consultation through final installation, we oversee each stage of the renovation process to help ensure projects are delivered as planned and aligned with our clients' needs."

The company's product offerings include a diverse selection of kitchen and bathroom cabinets in various styles, colors, and finishes, along with countertops available in granite, marble, quartz, and other premium materials. Additional products include tiles, sinks, and faucets from leading brands such as Kohler, and coordinating hardware options.

USA Cabinet Store operates showrooms across Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The company is transforming outdated spaces into modern, functional areas that serve as the heart of the home, combining striking cabinetry with luxury materials and seamless installations to create spaces that families genuinely enjoy.
