

USA Cabinet Store Expands Kitchen and Bath Remodeling Services to Alexandria Market

November 14, 2025

Chantilly, Virginia - November 14, 2025 -
USA Cabinet Store, a Northern Virginia remodeler operating from its Chantilly showroom since 2011, has announced the expansion of its service area to include Alexandria, responding to increased demand for professional remodeling services driven by recent federal housing policy developments.

The expansion comes as the federal government explores extended mortgage options designed to improve housing affordability, potentially allowing more families to enter the homeownership market. According to Bright MLS and Redfin data from October 2025, Alexandria's median home prices reached between $705,000 and $751,500, representing a 15.1 to 20.2 percent year-over-year increase. This environment is driving interest in renovations among both new homeowners and long-time residents.

"Alexandria represents a natural extension of our Northern Virginia service area," said Emin Halac, CEO and lead designer of USA Cabinet Store. "We have completed projects for customers across 14 years in Fairfax County and are expanding to meet demand in Alexandria."

The Chantilly showroom, located at 3857 Dulles South Court Unit B, serves as the flagship location for the expansion. The facility features design capabilities, cabinetry displays, countertop samples, and 3D virtual design technology. As a kitchen remodeler, the company offers complete kitchen transformations including custom cabinetry from premium brands such as Decora, Schrock, Diamond, Aristokraft, Mantra, Omega, and Fabuwood.

Northern Virginia kitchen remodels average $50,000 to $75,000, while bathroom renovations deliver a 73.5 percent return on investment according to industry data. The company's comprehensive approach to kitchen and bath remodeling eliminates the coordination challenges typically associated with managing multiple contractors, providing customers with a seamless renovation experience from initial consultation through final installation.

As a specialized bathroom remodeler, they bring expertise in complete bathroom renovations, modern design implementations, and space optimization solutions. The company's design team works with homeowners to create functional layouts incorporating specified materials and storage solutions.

The Alexandria expansion connects two of Northern Virginia's strongest housing markets. Fairfax County home values currently average $794,235, representing a 6.65 percent increase in 2025 assessments. With 625 weekly home showings recorded in Alexandria for the week ending November 2, 2025, the market demonstrates robust activity that supports continued investment in home improvements.

USA Cabinet Store operates 16 showroom locations across multiple states including Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The company specializes in providing end-to-end project management for both kitchen and bath remodeling, offering custom cabinet installations, premium countertops including quartz, granite, and marble options, and professional licensed installation services. Each project receives personalized attention from concept through completion, ensuring that functional design requirements align with aesthetic preferences to create spaces that improve family lifestyle and home functionality.
