Just 4 Kids Preschool Prepares for Annual Thanksgiving Event to Promote Gratitude and Family Involvement

November 12, 2025

MURRIETA, CA - November 12, 2025 -
Just 4 Kids Preschool is preparing for its annual Thanksgiving gathering, which focuses on teaching young children about gratitude and sharing through themed activities. This event provides families with an opportunity to participate in crafts and stories that highlight appreciation, aligning with the school's emphasis on social-emotional development.

As a childcare & daycare center in Murrieta, CA, Just 4 Kids Preschool integrates seasonal observances into its educational approach. The Thanksgiving activity includes group sessions where children create holiday-themed projects, such as thank-you notes or decorative items, encouraging expression and interaction. This complements other celebrations throughout the year, including Halloween trick-or-treating for creativity, Christmas programs with performances, Easter egg hunts for exploration, and Mother's Day and Father's Day honors through handmade gifts. These events allow parents to engage directly, in line with the school's policy of welcoming family participation at any time.

The programming is supported by the Frog Street curriculum, a research-based system that develops

foundational skills in math, literacy, and emotional intelligence. Adapted for different developmental stages, it begins with infants from six weeks old through sensory play, advances to toddlers with hands-on exploration, includes preschoolers in structured lessons, and extends to private kindergarten for school readiness. Teacher-to-child ratios are maintained to ensure focused care: one to four for infants, one to ten for toddlers and preschoolers, and one to 14 for older children.

Incorporated into daily schedules are music and dance elements that aid in recognizing sounds, building language skills, improving balance and coordination, enhancing memory, and understanding rhythm and counting. Classrooms feature dedicated learning zones for imaginative play, dress-up, early literacy and writing preparation, life skills practice, and a miniature kitchen setup to foster cooperation. Positive redirection is used for behavior guidance, with detailed reports sent to parents when incidents occur. The school's foundational principles of honesty, trust, respect, and responsibility inform all relationships within the community.

Security features include continuous CCTV monitoring and badge-controlled access. Outdoor recreation areas include shade structures and cooling mists, along with equipment for sand activities, riding toys, climbing structures, slides, building blocks, vehicles, and sports items. Indoor facilities offer alternative gross-motor opportunities through vibrant play setups. Operating hours extend from 6:00 a.m. to 6:30 p.m. on weekdays to suit various family needs.

Family engagement is facilitated through regular communication, including daily emails, monthly updates, personal journals, developmental portfolios, and progress evaluations. The BrightWheel application supplies immediate notifications and images of daily experiences. Additional community-building efforts include bi-weekly summer excursions to educational venues such as zoos, libraries, and museums, as well as on-site presentations by community professionals, including healthcare providers, emergency responders, and law enforcement.

Tuition covers balanced meals?breakfast, lunch, and snacks ?with a commitment to organic choices through the Child and Adult Care Food Program. The school has earned recognition from Quality Counts California for its educational standards. Accommodations include flexible attendance options, reductions for extended absences, and discounts for multiple-child families and military personnel, plus participation in government subsidy initiatives serving roughly one-third of the student body. New enrollees benefit from a two-week satisfaction guarantee, and referrals yield three weeks of complimentary service for both participants.

Alvin, co-owner of Just 4 Kids Preschool, commented, "Thanksgiving events offer children a chance to learn about appreciation while engaging in collaborative activities that build social connections."

Joy, co-owner, noted, "These holiday observances enhance our curriculum by applying learning concepts to

meaningful experiences, fostering stronger ties between children and their families."

Just 4 Kids Preschool is a family-operated enterprise founded by Alvin and Joy, who drew on their Philippine heritage and personal journey to create nurturing environments across several sites. Alvin's educational and philosophical expertise, paired with Joy's customer relations background, fosters a setting dedicated to holistic child development, innovative approaches, and communal support from infancy through the early school years.
