

In Stock Today Cabinets LLC Introduces Fabuwood Galaxy Mocha Collection to Texas Market

November 24, 2025

Houston, TX - November 24, 2025 -
In Stock Today Cabinets LLC has become the first authorized Fabuwood dealer in Texas to stock and display the newly launched Fabuwood Galaxy Mocha cabinet line, which debuted at the Kitchen & Bath Industry Show (KBIS) 2025. The Houston-based wholesale cabinet distributor now offers the rich, medium-brown collection that represents a significant shift in kitchen design preferences from cool grays to warmer, earth-toned palettes.

The Galaxy Mocha line features an espresso undertone that aligns with the transitional-modern aesthetic increasingly popular across Houston's diverse housing market.The collection addresses growing demand from homeowners in areas ranging from newly constructed homes in Katy and Cypress to renovation projects in Memorial and The Woodlands, where kitchen remodels typically range from $25,000 to $120,000.

"We are proud to be the first showroom (Fabuwood's authorized dealer) in Texas to bring Fabuwood's KBIS-debuted Galaxy Mocha to Houston," said Emin Halac, representative of In Stock Today Cabinets LLC.

"Homeowners across Houston?from Cypress to Pearland?are telling us they're ready to move beyond the cool grays and embrace warmer, more inviting kitchen palettes. Galaxy Mocha provides a medium-brown finish compatible with both modern and traditional design applications."

The introduction of Fabuwood Kitchen Cabinets in the Galaxy Mocha finish responds to documented market trends showing Houston ranks second nationally for home improvement investment, with residents investing an average of 2.6 percent of their home value in renovations. Kitchen updates remain a top priority for 90 percent of Houston area renovators, who increasingly seek sophisticated, durable finishes that support long-term value in the competitive real estate market.

While white cabinets maintain 68 percent of market share, the fastest-growing trend involves richer, warmer tones that create welcoming atmospheres. The Galaxy Mocha collection offers versatility in design applications, pairing effectively with matte black hardware, brass accents, and natural stone surfaces that define Houston's popular mixed-materials trend.

"Galaxy Mocha is well suited to a range of popular Houston home styles," Halac noted. "Two-tone applications?pairing Mocha lower cabinets or an island with lighter Dove uppers?are popular in new builds across the Houston area. It complements the light-colored quartz and granite countertops that 90% of Houston renovators are selecting."

In Stock Today Cabinets LLC stocks the Fabuwood Cabinets Galaxy Mocha collection in both ready-to-assemble and pre-assembled formats, with same-week delivery available throughout Houston, The Woodlands, Pearland, and greater Harris County. The collection features KCMA certification, solid wood frames, five-eighths inch solid birch dovetail drawers, Blum soft-close hardware, and a Limited Lifetime Warranty.

In Stock Today Cabinets LLC operates as an authorized distributor of Fabuwood and FIBO products, specializing in wholesale kitchen cabinets and bathroom vanities. The company maintains showrooms across Texas and the Mid-Atlantic region, offering free design consultations, kitchen visualization tools, and comprehensive product catalogs for builders, contractors, and homeowners.
