

In Stock Today Cabinets LLC Expands Fabuwood Wholesale Distribution to Meet Delaware's Growing Construction Demand

November 26, 2025

835 Pulaski Hwy, Bear, DE - November 26, 2025 -
In Stock Today Cabinets LLC has expanded its wholesale distribution operations in Delaware to serve the state's robust construction and remodeling market, valued at $1.5 billion annually. The company's Delaware facility now provides contractors, builders, and dealers throughout the Mid-Atlantic region with direct access to Fabuwood wholesale kitchen cabinets, addressing critical supply chain challenges that have plagued the industry with 8-12 week lead times.

Delaware's construction employment has reached 24,700 workers as of July 2025, representing a 6 percent increase from February 2020 levels, according to AGC Construction Employment Data. This growth, combined with the state's median household income and strong housing market dynamics, has created substantial demand for reliable cabinet suppliers who can support accelerated project timelines.

The expansion positions In Stock Today Cabinets as an authorized Fabuwood distributor serving all three

Delaware counties?New Castle, Sussex, and Kent?while extending coverage to Maryland, Virginia, and surrounding Mid-Atlantic states. The company offers the complete Fabuwood Allure product portfolio, including Galaxy Frost White, Galaxy Horizon Gray, Galaxy Nickel, Galaxy Cloud White, Luna shaker styles, and the Designer Collection featuring Cabernet Red, Forest Green, Macadamia Beige, Mint Green, Orchid Purple, and Galaxy Mocha finishes.

"Delaware's remodeling market represents a significant opportunity for contractors and builders who need in-stock Kitchen Cabinets without the traditional waiting periods," said Emin Halac, spokesperson for In Stock Today Cabinets LLC. "By maintaining extensive inventory and offering same-day pickup for select models, we enable construction professionals to meet their project deadlines while accessing wholesale pricing that helps offset material cost increases affecting the industry."

The IBISWorld Delaware Remodeling Market report indicates that kitchen and bathroom remodeling represents a major segment of the state's construction activity, with homeowners investing a median of $60,000 for major kitchen remodels and $20,000 for minor updates. Kitchen remodels offer a 96 percent return on investment for midrange projects, making cabinet quality critical for maintaining property values.

In Stock Today Cabinets provides wholesale kitchen cabinets that meet rigorous quality standards, including KCMA certification, Q12 quality protocols, solid wood construction, dovetail drawers, and Blum soft-close hardware. All Fabuwood products carry a Limited Lifetime Warranty, providing contractors and their clients with long-term assurance.

The company's Delaware operation offers comprehensive support for construction professionals, including wholesale pricing structures, regional territory protection for dealers, marketing and sales support, technical training programs, and access to Fabuwood's recently expanded production capacity. This infrastructure ensures consistent inventory availability for contractors managing multiple projects across the region.

In Stock Today Cabinets LLC operates as a multi-state distributor specializing in premium all-plywood kitchen and bathroom cabinetry. The company maintains locations in Delaware, Maryland, Virginia, and Texas, offering both ready-to-assemble and fully assembled cabinet options. As an authorized distributor of Fabuwood and FIBO products, the company provides design consultations, delivery services, and multiple selection of cabinet styles to meet diverse project requirements.
