

Front Yard Originals Announces Availability of Life-Size Nativity Scenes for Yard Displays This Holiday Season

November 13, 2025

LINDEN, MI - November 13, 2025 -
Front Yard Originals has announced the availability of its expanded collection of winter yard displays, featuring life-size Nativity scenes and additional seasonal decorations, as the 2025 holiday season approaches. These outdoor displays include figures and structures made from waterproof plastic board suitable for various weather conditions. The collection allows for complete representations of holiday themes in residential or community settings.

The core offering remains the Outdoor Life-Size Nativity, which includes Mary, Joseph, and Baby Jesus. Joseph measures 5 feet 8 inches tall. Complementing this are add-on packages: one with an angel at 65 inches tall, a shepherd at 67 inches, and sheep; another with a camel at 42.5 inches, an ox at 27.5 inches, and a donkey; and a third with three kings, the tallest at 71 inches and the kneeling king at 50 inches. These components enable the assembly of comprehensive displays depicting the nativity story.

Bundled options are also available. The Life-Size Complete Nativity Sets include the core nativity along with

all three add-ons, encompassing Jesus, Mary, Joseph, the three kings, an angel, a shepherd, sheep, a camel, an ox, and a donkey. Alternatively, the Life-Size Nativity Add-On Sets bundle the three expansion packages for those who own the basic nativity display.

A separate stable structure measures 110 inches to the tip of the star, 96 inches post to post, 122 inches eave to eave, and 38 inches deep. This stable is constructed from weatherproof materials and is sized for the life-size nativity set. All items in the nativity portion of the collection use thick, high-quality waterproof plastic board where specified, providing resistance to outdoor elements.

These nativity products maintain proportions for life-size effects, suitable for front yard installations during the Christmas period. The designs focus on simplicity while ensuring durability for seasonal use. Manufactured in the United States, the sets reflect standards in material quality and construction.

Shane Easler, partner of Front Yard Originals, provided details on the materials used across the collection. "The life-size nativity scenes and other winter displays feature figures made from waterproof plastic board," said Easler. "These materials allow the sets to be used outdoors in various conditions."

Easler also discussed the modular nature of the nativity collection. "The add-ons provide options for customization based on available space and preference," he added.

Beyond the nativity scenes, the winter displays collection includes a variety of other seasonal decorations designed for outdoor use. Items such as the Trumpeting Silhouette Angel Pair, measuring appropriately for yard placement, offer standalone or complementary elements to holiday setups. The Large Outdoor Praying Angel provides a silhouette style figure in prayer pose. Reindeer displays, including the Medium Reindeer and Large Elegant Reindeer Pair, add elegance to yards and can be illuminated for nighttime visibility.

Additional animal-themed displays feature the All-Weather Large Christmas Moose, a silhouette style piece, and the All-Weather Polar Bear and Cub, depicting a mother bear with her young. Penguin options include the Holiday Penguin Pair and the Joy Penguin Trio, which convey seasonal messages through playful designs. These pieces are crafted from all-weather PVC plastic, resistant to mold, mildew, and rotting.

The collection also encompasses decorative sets like the PVC Snowflake Set of 6 and the All-Weather Christmas Village Set, transforming outdoor spaces into winter scenes. Sleigh combos, such as the All-Weather Large Reindeer White Sleigh Combo and the Red Sleigh Combo with Eight Reindeer, provide comprehensive display options for larger yards.

All these products emphasize durability, with many precision manufactured in the United States using waterproof PVC materials. They assemble easily without tools through tab and slot designs and are built to

last for multiple seasons. The winter displays draw from holiday traditions, offering visual representations suitable for various outdoor settings.

The announcement aligns with preparations for holiday decorations, where nativity scenes and winter displays serve as central elements in Christmas observances. These items reflect historical and cultural traditions while providing options for personalization.

Pricing for the core nativity set is $249.99, with each add-on at $269.99. The complete nativity set is $999.99, the add-on bundle is $779.99, and the stable is $499.99. Other winter displays range from $44.99 for the snowflake set to $1,100.99 for the extensive reindeer and sleigh combo. These figures account for the materials and craftsmanship in producing weather-resistant outdoor decorations.

The products are available for purchase through the company's online store, with free shipping offered within the contiguous United States.

Front Yard Originals specializes in nativity scenes and Christmas decorations, with products manufactured in the United States.
