

Fence and Deck Depot Announces Growth in Pre-Holiday Deck and Fence Installations

December 03, 2025

ST. CHARLES, MO - December 03, 2025 -
Fence and Deck Depot is reporting a substantial rise in homeowners investing in new fence and deck installations ahead of the holiday season. As residents throughout St. Charles County and neighboring Missouri communities prepare for winter gatherings, many are focusing on outdoor upgrades that enhance curb appeal, improve functionality, and add long-term value to their homes.

The St. Charles?based contractor has noted a marked increase in fencing and decking project requests compared to previous fall seasons, with many homeowners aiming to complete installations before the holidays. Despite cooler temperatures, interest in outdoor living enhancements continues to grow as homeowners seek practical improvements that support holiday entertaining and year-round usability.

?Homeowners are thinking strategically about their outdoor spaces this year,? said a Media Relations spokesperson for Fence and Deck Depot. ?By completing fence or deck installations in the fall, property owners can enjoy these improvements through the holidays while also increasing their home?s value heading

into the new year.?

This shift underscores a broader change in how homeowners view outdoor living. Rather than limiting fence and deck upgrades to the warmer months, more property owners recognize the year-round advantages these improvements offer. New fencing provides added privacy and security during the busy holiday season, while updated decking creates additional entertaining space that can be comfortably used in cooler weather with the help of heating features or covered areas.

Deck builders in St. Charles report continued interest in composite and vinyl materials for late-season installations due to their durability and low maintenance needs during winter. These materials withstand moisture and temperature fluctuations more reliably than traditional wood, making them ideal for fall projects. In response to the increased demand, Fence and Deck Depot is expanding scheduling options to help homeowners seeking pre-holiday completion through flexible scheduling. Popular project types include privacy fences designed to create intimate gathering spaces, picture-frame decks that elevate a home?s aesthetics, and combination projects integrating both fencing and decking for a complete outdoor transformation.

Many homeowners are also motivated by the potential return on investment. Real estate professionals frequently identify outdoor upgrades such as high-quality fencing and composite decking as some of the most valuable home improvements. Completing these installations in the fall allows homeowners to enjoy the benefits immediately while positioning their property advantageously for the spring real estate market.

Fence and Deck Depot, headquartered in St. Charles, MO, specializes in residential and commercial fence and deck installations across St. Charles County, St. Louis County, and surrounding Missouri and Illinois communities. The company offers a full range of fencing options, including vinyl, aluminum, chain link, wood, and PVC materials, along with custom deck designs using composite, vinyl, and traditional wood. With experienced installation teams and partnerships with trusted manufacturers, Fence and Deck Depot has completed thousands of projects throughout the region.
