

Laiona Moving LLC Expands Local Moving Services to Additional Neighborhoods

November 18, 2025

November 18, 2025 - PRESSADVANTAGE -

Laiona Moving LLC, a licensed and insured moving company, has expanded its long-distance moving services across Massachusetts and nearby states. The initiative strengthens the company's reach and supports its mission to provide structured and dependable relocation solutions for residential clients moving beyond city limits.

Founded in 2021, Laiona Moving LLC has earned recognition for its organized and professional approach to moving. Building on operations in Greater Boston, the company now assists customers relocating between Massachusetts and neighboring states, including New Hampshire, Rhode Island, Connecticut, and New York. The long-distance division continues the same foundation as its local service, emphasizing planning, communication, and accountability.

According to company representatives, the expansion responds to growing demand for transparent and reliable moving options. Long-distance moves often involve complex logistics, such as route management,

multi-day schedules, and extended coordination. Laiona Moving manages these challenges internally by relying only on trained company employees rather than third-party contractors or brokers. This approach allows the company to maintain quality control and direct oversight at every stage.

"People deserve to know exactly who is handling their belongings," said Ramy Laribi, owner of Laiona Moving LLC. "We take full responsibility for every move from start to finish. By managing the entire process in-house, we ensure that our customers receive consistent, professional service no matter the distance."

The company's pricing model features one hourly rate that includes transportation, fuel, and labor. There are no additional mileage charges or hidden costs. This system helps clients plan their moves accurately and prevents billing surprises after delivery. Each move includes pre-scheduling, progress updates, and communication checkpoints to keep customers informed throughout the process.

Each relocation begins with a detailed consultation. Teams assess property layout, item inventory, and travel routes before assigning equipment and staff. All company vehicles are equipped with protective supplies, including padded blankets, shrink wrap, mattress covers, and floor runners. These materials are provided at no extra cost to ensure careful handling and prevent damage.

Every move is covered by up to \$100,000 in item protection insurance. The policy provides assurance for clients and supports accountability throughout transport. Crews maintain detailed records of all items and verify their placement upon arrival.

The company follows a four-step process that includes planning, preparation, execution, and verification. Planning focuses on logistics and access evaluation. Preparation involves labeling and packaging items efficiently. Execution ensures professional handling during transit, while verification confirms that all belongings arrive safely and are placed correctly at the destination, providing clients with clear oversight and dependable structure.

The expansion also accommodates smaller relocations and specialized moves involving artwork, instruments, or antiques. By retaining full control of scheduling and staff, Laiona Moving maintains punctuality and reliability for each project. The company also emphasizes clear coordination with clients to prevent delays and ensure smooth handling from start to finish.

"Our long-distance moving service was built on the same values as our local operations," Laribi said. "We focus on structure and respect for time, property, and communication. Growth for us is not about volume; it is about consistency and trust."

Laiona Moving LLC operates seven days a week between 8 a.m. and 8 p.m., offering flexibility for weekend and evening moves. With this expansion, the company reaffirms its commitment to providing clear, reliable, and professional relocation services for residents and families throughout the region.
