

The Garden Issue Publishes Post On What Is A Pergola

March 10, 2016

March 10, 2016 - PRESSADVANTAGE -

The Garden Issue has released a new post answering the question of "what is a pergola." The publication states that they are the number one resource on pergolas and that their post offers everything one may need to know about this garden feature in one article.

Edda Brook, author for The Garden Issue, states: "There are so many people who are confused about the difference between a pergola and other garden structures. This post is designed to answer questions and help clear up that confusion."

The article offers a clear definition of the pergola, and provides images and specific information regarding this structure as it pertains to decorating outdoors. It outlines pergolas and arbors and goes into detail about the structures, offering ideas and advice on how to use them in outdoor decorating. "Our goal is to provide overall information, but to inspire people to create their own outdoor oasis using these structures," explains Edda Brook.

One section of the article compares the structure to carports, while another goes into detail about its history, dating it back to the mid-1600s. Overall, the publication states that the article is designed to contain all information any reader would ever want on the topic including how to use them, where to find them, and why they are so popular in outdoor decorating. Various designs from modern and metal to traditional Japanese structures are also shown and explained, generally giving readers a complete look at the pergola and all that it entails.

The online magazine provides a number of related topics as well, giving readers a glimpse at various outdoor decorating subjects and offering ideas and advice. In addition to outdoor decorating, they discuss topics involving food, crafts, and other areas of interest.

Edda Brook states that their overall goal is to be an informative place for individuals to find everything they are looking for when it comes to their homes and families. From cooking to creating an outdoor paradise, the magazine states that they have every possible topic of interest covered. The new article is live now and

available for reading, and the magazine states that they regularly update with new information on various topics of interest.
