

MVP Plumbing & Heating Expands Services to Include Water Heater Repair and Installation in Trumbull, CT and Surrounding Areas

November 21, 2025

Trumbull, Connecticut - November 21, 2025 -
MVP Plumbing & Heating, a locally trusted plumbing and heating contractor serving Trumbull and neighboring Connecticut communities, has announced the launch of its new water heater repair, replacement, and installation services. This expansion strengthens the company?s ability to provide comprehensive plumbing and heating solutions for both residential and commercial customers throughout Fairfield County.

For many homeowners, the water heater is one of the most essential systems in the home, ensuring comfort, convenience, and energy efficiency. Recognizing the growing need for dependable water heater service in the area, MVP Plumbing & Heating now offers full-service solutions for all makes and models, including tank and tankless systems. The company?s licensed technicians provide expert diagnostics, same-day repairs when possible, and professional installation for new or upgraded units.

?Water heaters are something most people don?t think about until they stop working,? said Matt Villegas, owner of MVP Plumbing & Heating. ?We wanted to make it easier for our customers to get reliable help quickly?whether they?re dealing with no hot water, leaks, or an outdated system that needs replacement. Our goal is to take the stress out of the process and ensure that every home has consistent, efficient hot water.?

Villegas noted that MVP?s expansion into water heater services came in response to increased local demand for skilled technicians who can handle both traditional and high-efficiency systems. ?We?ve seen more homeowners in the Trumbull area investing in energy-efficient tankless water heaters, and many others with older systems that need upgrades,? he explained. ?By adding dedicated water heater repair and installation services, we can offer expert guidance and professional installation for every type of system?so our customers can choose the best option for their household or business.?

MVP Plumbing & Heating is a fourth-generation family-owned company based in Trumbull, Connecticut. The business has built its reputation on honesty, quality workmanship, and long-term reliability. Already known for its expertise in plumbing, heating, and gas or oil line services, the company?s expansion into water heater solutions represents a natural next step in its mission to deliver complete comfort and utility to the communities it serves.

MVP?s new water heater service covers everything from troubleshooting pilot light issues and repairing faulty thermostats to replacing leaking tanks and installing energy-efficient models. The team ensures that each installation meets local safety standards and efficiency requirements, while also offering maintenance recommendations to extend the life of every system. By managing every step?from removal of old units to final testing of new installations?the company provides customers with a smooth, dependable experience. ?At MVP Plumbing & Heating, we believe great service is about more than fixing a problem?it?s about helping people feel confident and cared for,? Villegas said. ?When a family calls us because they have no hot water, we know that?s more than an inconvenience. It affects their comfort and daily life. That?s why we make it our priority to respond quickly, work efficiently, and leave every customer with a solution they can trust.?

MVP Plumbing & Heating serves Trumbull, Fairfield, Greenwich, and the surrounding communities across southwestern Connecticut. The company continues to grow its range of services while maintaining the same family-driven values and commitment to excellence that have defined its history for generations.
