

USA Cabinet Store Announces Expanded Turnkey Kitchen Remodeling Services in Cherry Hill

November 26, 2025

CHERRY HILL, NJ - November 26, 2025 -
USA Cabinet Store has announced the expansion of its turnkey kitchen remodeling contractor services at its Cherry Hill showroom, responding to growing demand for professionally managed home renovations in Camden County and surrounding South Jersey communities. The expansion introduces integrated project management capabilities that coordinate all aspects of kitchen and bathroom renovations under a single point of contact.

The Cherry Hill location now offers complete project oversight from initial design consultation through final installation, addressing the increasing preference among homeowners for professionally led renovations over do-it-yourself projects. According to the National Kitchen & Bath Association's (NKBA) 2025 Kitchen & Bath Market Outlook, professionally managed kitchen and bath remodels are forecast to grow 2.9 percent in 2025, compared with only 0.6 percent growth for DIY projects, reflecting a shift in consumer preferences toward comprehensive renovation solutions.

"The expansion of turnkey remodeling contractor services in Cherry Hill enables USA Cabinet Store to coordinate all aspects of kitchen and bath renovations for South Jersey homeowners," said Emin Halac, representing USA Cabinet Store. "By integrating design, cabinetry, plumbing, electrical, and tile work under one team, the company streamlines multi-trade renovation projects to maintain quality and timeline."

The enhanced service model addresses several challenges facing the remodeling industry, including skilled labor availability and the complexity of New Jersey's residential building codes and permitting requirements. As a kitchen remodeling contractor handling all aspects of renovation projects, USA Cabinet Store manages permit applications, code compliance, and inspection scheduling, reducing administrative burden for homeowners throughout Camden, Burlington, and Gloucester counties.

The Cherry Hill showroom serves as part of USA Cabinet Store's network of locations across eight states, bringing proven project management methodologies and design expertise developed since 2011. The facility features displays of kitchen and bathroom designs, cabinet options from nationally recognized brands including Showplace, UltraCraft, Wolf Designer Cabinets, and Fabuwood, along with countertops, tiles, and fixtures.

The expansion comes as remodeling spending continues to show resilience in the residential construction sector. Private residential improvement spending posted an 8.2 percent gain in August 2025, demonstrating that homeowners are choosing to improve their existing homes rather than relocate in the current market environment.

The Cherry Hill location offers free consultations with custom 3D kitchen design services, flexible financing options including zero percent interest plans, and a satisfaction guarantee. The showroom serves communities throughout a ten-mile radius, including Pennsauken, Collingswood, Haddonfield, Moorestown, Mount Laurel, and portions of Philadelphia.

USA Cabinet Store is a kitchen and bathroom remodeling company offering renovation services?including cabinetry, countertops, flooring, lighting, and plumbing fixtures?at 13 showrooms across Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The company provides design consultations and professional installation services for residential projects.
