

KIRO Recognized for Consistent Patient Satisfaction and Positive Public Feedback

November 28, 2025

NEW YORK, NY - November 28, 2025 - PRESSADVANTAGE -

KIRO, a modern chiropractic and wellness studio based in Midtown East, has received notable recognition from patients across New York City for its professionalism, consistency, and patient-centered care. The growing number of positive reviews highlights KIRO?s continued focus on results-driven, personalized chiropractic service since opening in 2023.

The feedback reflects an increasing awareness of chiropractic care as part of urban wellness routines and underscores KIRO?s role in providing accessible, reliable treatment to people managing the physical demands of city life. Patients have praised the studio?s modern approach, Nervous System Scans for members, and transparent communication, noting improvements in posture, mobility, and overall comfort through regular visits.

According to Sherjan Husainie, Founder of KIRO, the recent influx of positive reviews represents more than strong customer satisfaction; it shows a shift in how New Yorkers view chiropractic care. ?When we started KIRO, our goal was to create a place where people could receive trusted spinal care that fits into their lives,? Husainie said. ?Hearing that patients value our approach confirms that we?re not only providing treatment

but also building understanding and long-term wellness habits.?

Recent feedback on public platforms reinforces that reputation. In one review, Mirko Todorovic, a local guide, described the experience as ?professional and welcoming,? adding that ?the environment feels calm and organized, and the doctors demonstrate expertise that immediately builds trust.? Another reviewer, Aleah, noted that the space is ?clean and comfortable? and commended the team?s clear, supportive communication.

One patient, Daniel Haynes, shared: ?After two years away from chiropractic care, I finally made it back?and my first visit to KIRO did not disappoint. The environment was immediately calming, and the care felt truly personalized to where I?m at in my journey. What stood out most was that I never felt pressured to book another appointment (which is very important to me). I left feeling cared for, relaxed, and confident that I?II be back.?

These authentic reviews highlight KIRO?s strengths in communication, professionalism, and clinical reliability, qualities that align with broader wellness trends where patients value accessibility, transparency, and consistent results over one-time treatments.

Since its founding, KIRO has emphasized a care model that combines precise chiropractic adjustments, posture correction, and education on everyday movement. Each new visit begins with a consultation and exam, followed by individualized adjustments. Members receive a monthly Nervous System Scan to monitor measurable progress in spinal alignment and function.

KIRO?s membership-only structure continues to make ongoing chiropractic care simple and predictable for patients. With one flat monthly rate of \$180, members have unlimited access to adjustments and a monthly Nervous System Scan to track progress over time. This approach removes insurance barriers, encourages consistency, and helps patients build long-term habits that support mobility, posture, and nervous-system balance.

Unlike traditional insurance-based practices, KIRO offers a membership-only model at \$180 per month, providing unlimited visits and consistent care without coverage limitations. First-time patients can schedule a \$39 New Patient Special through the studio?s website or mobile app before joining a membership for ongoing care.

?The foundation of our work is clarity,? Husainie said. ?Patients deserve to understand how their spine and nervous system respond to care. By showing progress through measurable evaluations, we help them stay consistent and confident in their results.?

Beyond its Midtown East studio, KIRO?s reach now extends into neighboring communities such as the Upper

East Side, Turtle Bay, and Sutton Place, largely through patient referrals and community partnerships.

By combining modern care with convenience, KIRO ensures that wellness fits naturally into everyday city life.

All appointments are booked through the KIRO app or website, allowing same-day visits for members

managing busy schedules. The studio?s calm design, efficient process, and transparent communication

make every experience approachable and consistent, whether it?s a first-time visit or part of an established

routine.

As KIRO continues to grow, the team remains committed to the same standards that built its reputation:

professionalism, education, and lasting results. ?Positive feedback reminds us to keep improving, not just

maintaining,? Husainie added. ?Our goal is simple: make high-quality chiropractic care accessible,

transparent, and built for everyday life.?

KIRO is a modern chiropractic and wellness studio located in Midtown East, New York City. Founded in 2023,

the studio provides spinal adjustments, posture correction, and Nervous System Scans for members to

support mobility and long-term wellness. With its unlimited membership model, same-day booking through
