

Drake's 7 Dees Landscaping and Garden Center Expands Premium Landscape Lighting Services for Portland Homeowners

December 05, 2025

Portland, Oregon - December 05, 2025 -
Drake's 7 Dees Landscaping and Garden Center, a Portland-based landscape design and garden center company with over 60 years of experience, announces the expansion of its premium landscape lighting services to meet growing demand from homeowners seeking enhanced outdoor ambiance and year-round curb appeal.

The family-run business, located on Scholls Ferry Road in Portland, has seen increased interest in professional landscape lighting installations as property owners recognize the value of illuminated outdoor spaces for both aesthetic appeal and functional safety. The expanded lighting services include comprehensive design consultations, professional installation, and ongoing maintenance programs tailored to residential properties throughout the Portland metropolitan area.

"Landscape lighting has evolved from a luxury to an essential element of modern outdoor design," said Drake

Snodgrass, spokesperson for the company. "Portland homeowners are discovering that strategic lighting not only extends the usability of their outdoor spaces into evening hours but also significantly enhances property value and security. Our expanded services address this growing demand with sustainable, energy-efficient solutions that complement our existing landscape design offerings."

The expansion comes as outdoor living spaces continue to gain importance in residential property design. Drake's 7 Dees Landscaping and Garden Center landscape lighting services now encompass pathway illumination, accent lighting for architectural features, garden highlighting, and integrated smart lighting systems that can be controlled remotely. The company's design team works closely with clients to create customized lighting plans that enhance existing landscapes while maintaining energy efficiency through LED technology and solar options where appropriate.

The comprehensive approach to outdoor lighting integrates seamlessly with the company's established services, which include landscape design and build, sprinkler system installation, water feature creation, and artisan pruning. This holistic approach allows homeowners to coordinate all aspects of their outdoor space development through a single, experienced provider.

Beyond aesthetic considerations, the expanded lighting services address practical concerns including safety along walkways, security around property perimeters, and functionality for outdoor entertainment areas. The company's lifetime plant warranty extends to protect landscaping investments that are showcased through professional lighting design, ensuring that illuminated gardens and plantings continue to thrive.

The timing of the expansion aligns with seasonal considerations as Portland residents prepare for shorter daylight hours and seek ways to maintain outdoor enjoyment throughout the year. Professional landscape lighting allows homeowners to appreciate their outdoor investments regardless of season or time of day.

Drake's 7 Dees Landscaping and Garden Center maintains a 4.8-star rating based on nearly 400 customer reviews, reflecting its commitment to quality service and customer satisfaction. The company operates from its Portland location, offering a full range of landscaping supplies, design services, and professional installation. With decades of experience serving the Portland community, the business has established itself as a trusted resource for residential landscape transformation, combining traditional gardening expertise with modern design innovation and sustainable practices.
