

Bare Skin and Beauty Salon Hillarys Expands Advanced Skin Care Services

December 05, 2025

December 05, 2025 -

Bare Skin and Beauty Salon Hillarys at Westfield Whitfords has expanded its comprehensive range of professional skin care services to address the growing demand for advanced dermatological treatments in the Perth metropolitan area. The facility now offers over 30 specialized treatments, from traditional facials to cutting-edge procedures including plasma fibroblast therapy and IPL photo rejuvenation.

The expansion comes as Western Australian consumers increasingly seek professional skin health solutions that combine medical-grade technology with personalized treatment plans. The salon has enhanced its service offerings to include advanced procedures such as skin needling, hydradermabrasion, and LED light therapy, alongside traditional beauty services.

"The demand for professional skin care has transformed significantly over the past few years, with clients seeking evidence-based treatments that deliver measurable results," said a spokesperson for Bare Skin and Beauty. "Our expanded service menu reflects this shift, offering everything from lymphatic therapy facials to

advanced Cosmelan peels, ensuring we can address diverse skin concerns with the most appropriate treatment modalities."

The skin care clinic distinguishes itself through its comprehensive approach to skin health, offering specialized treatments for both men and women. The facility utilizes products from renowned skincare brands including Medik8, O Cosmedics, Dermaviduals, and Dermalogica, ensuring clients receive treatments backed by scientific research and clinical testing.

Among the expanded services, the salon has introduced mindfulness facials that incorporate relaxation techniques with skin treatment, addressing the connection between stress and skin health. The facility also offers membership programs that provide regular treatments and product discounts, making professional skin care more accessible to a broader clientele.

The salon's investment in advanced technology includes equipment for IPL hair removal, microdermabrasion, and the innovative Plaxpot plasma fibroblast system for non-surgical skin tightening. These technologies enable the treatment of various skin conditions including sun damage, hyperpigmentation, acne scarring, and signs of aging.

Beyond facial treatments, the facility provides comprehensive body treatments including specialized back treatments, body massages, and spray tanning services. The addition of teeth whitening and piercing services positions the salon as a complete beauty and wellness destination.

The expansion also addresses the specific needs of male clients with dedicated men's waxing services and tailored skin treatments, recognizing the growing male grooming market in Australia.

Bare Skin and Beauty Salon operates as a full-service skin care clinic specializing in both medical-grade skin treatments and traditional beauty services. Located at Shop 83/470 Whitfords Ave within Westfield Whitfords shopping center in Hillarys, the salon serves the northern suburbs of Perth with a focus on personalized treatment plans and advanced skin care technology. The facility combines professional expertise with state-of-the-art equipment to deliver comprehensive skin health solutions ranging from preventative care to corrective treatments.
