

Era Pickleball Expands Programs and Membership Options for Shenandoah, TX Players

December 16, 2025

The Woodlands, Texas - December 16, 2025 -
Era Pickleball, the premier indoor pickleball facility serving The Woodlands and surrounding communities, announces expanded programming and enhanced membership options designed to meet the growing demand for organized pickleball activities in the region. The facility has introduced new tournament formats, additional instructional programs, and flexible membership tiers to accommodate players of all skill levels.

The expansion comes as pickleball continues its rapid growth as one of the fastest-growing sports in America, with participation increasing by nearly 40 percent over the past two years according to the Sports & Fitness Industry Association. ERA Pickleball has responded to this surge in interest by developing comprehensive programs that serve everyone from beginners to competitive tournament players.

"We're seeing unprecedented interest in Pickleball in The Woodlands, TX and throughout the greater Houston area," said Christian Tejada, Club Director and Owner of Era Pickleball. "Our expanded programs reflect our commitment to providing exceptional playing experiences while building a strong community of

players who share a passion for this dynamic sport."

The facility's updated offerings include enhanced league play options with multiple skill divisions, allowing players to compete at appropriate levels while developing their abilities. New tournament formats introduce innovative competitive play styles that challenge participants while maintaining the inclusive atmosphere that makes pickleball appealing to diverse age groups and athletic backgrounds.

Instructional services have also been expanded to include specialized clinics focusing on specific aspects of gameplay, from serving techniques to strategic positioning. The kids' academy program has been restructured to provide age-appropriate training that develops both athletic skills and sportsmanship. Private lessons remain available for those seeking personalized instruction from the facility's experienced coaching staff.

Membership options now feature greater flexibility, with packages designed for casual players who enjoy occasional open play sessions as well as dedicated athletes participating in multiple leagues and tournaments. Corporate membership packages have been introduced to support local businesses seeking team-building activities and employee wellness programs.

The facility's court booking system has been upgraded to streamline the reservation process, making it easier for members to schedule games with friends or join organized play sessions. This technology enhancement addresses the challenge many players face in finding available courts during peak hours, particularly as interest in Pickleball in Houston, TX continues to grow.

"Our goal extends beyond simply providing courts," added Tejada. "We're creating an environment where friendships form, skills develop, and the pickleball community thrives. The connections our members make here often extend far beyond the game itself."

Era Pickleball operates a state-of-the-art indoor facility that eliminates weather-related cancellations and provides consistent playing conditions year-round. The climate-controlled environment ensures comfortable play regardless of TX weather conditions, addressing a common challenge for outdoor players during extreme temperatures.

The facility continues to host corporate events, offering customized experiences for businesses looking to engage employees or clients in a unique setting. These events combine instruction, gameplay, and team-building elements tailored to each group's objectives.

Era Pickleball serves The Woodlands and surrounding communities with comprehensive pickleball programming, including open play, leagues, tournaments, and instruction for all ages and skill levels. The facility features multiple indoor courts and maintains a welcoming environment focused on community building and athletic development.
