

PHiLL It Up Disposal Expands Dumpster Rental Service Coverage Across Western Pennsylvania

December 03, 2025

KITTANNING, PA - December 03, 2025 -
PHiLL It Up Disposal, LLC, a veteran-owned waste management company based in Kittanning, Pennsylvania, has announced expanded service coverage to better serve residential and commercial customers throughout western Pennsylvania. The company now provides comprehensive dumpster rental and waste management services to Kittanning, Sarver, Indiana, Apollo, Butler, New Kensington, Natrona Heights, Pittsburgh, and all areas in between.

The expanded service area reflects growing demand for reliable waste management solutions across the region. The LLC in Pennsylvania offers multiple dumpster sizes ranging from 10-yard to 30-yard containers, accommodating various project scales from home renovations to large construction sites. Each rental includes up to seven days of use, with flexible extension options available for longer-term projects.

"We recognized that many communities in western Pennsylvania were underserved when it came to dependable dumpster rental options," said Philip Young of PHiLL It Up Disposal. "By expanding our service territory, we can now provide the same reliable waste management solutions that Kittanning residents have come to trust to customers throughout the region. Our goal is to make proper waste disposal accessible and

convenient for every project, whether it's a simple home cleanout or a major construction undertaking."

The company's service expansion comes at a time when proper waste management has become increasingly important for both environmental compliance and community development. Beyond standard dumpster rentals, the company provides weekly garbage pickup services, junk removal for appliances and furniture, and comprehensive waste management consulting for commercial clients.

Customers throughout the expanded service area can now access the same range of services that have earned the company a 4.6-star rating based on customer reviews. The veteran-owned business has built its reputation on timely delivery and pickup, transparent pricing, and a commitment to responsible waste disposal practices that prioritize recycling whenever possible.

"Expanding our reach means more than just covering more territory," Young added. "It means bringing professional waste management standards to communities that may have struggled with limited options in the past. We understand that every project has unique requirements, and our team works closely with customers to determine the right dumpster size and rental period for their specific needs."

The company maintains its operational base in Kittanning while deploying resources strategically throughout the service area to ensure prompt delivery and pickup times. This approach allows the business to maintain the personalized service that has distinguished it in the local market while meeting the demands of a broader customer base.

PHiLL It Up Disposal specializes in providing waste management solutions for both residential and commercial clients. The company offers a complete range of services including dumpster rentals in multiple sizes, regular garbage collection, junk removal, and customized waste management programs. As a veteran-owned business, the company emphasizes reliability, professional service, and environmental responsibility in all its operations.
