

Pinnacle Removals Reports 421% Increase in UK Moving Enquiries for 2025

December 15, 2025

Looking at this address, I can see this is a UK address based on the postal code format "RH12 3S" which is a British postcode.

The city is HORSHAM, and since this is in the UK (England), there isn't a direct state equivalent like US states.

HORSHAM, UK - December 15, 2025 -
Pinnacle Removals & Storage Ltd has reported a 421% increase in enquiries for domestic relocations between January 1 and November 30, 2025, compared to the same period in 2024. The surge reflects a significant shift in UK household moving patterns as families reassess their living arrangements following evolving work and lifestyle preferences.

The company, which operates from depots in Hackbridge and Horsham, has experienced unprecedented demand for both local moves within South London and West Sussex areas, as well as longer-distance UK removals services. The dramatic rise in enquiries spans various demographic groups, with families seeking larger properties, professionals relocating for hybrid working arrangements, and households pursuing better

school catchments.

"The scale of increase has been remarkable, with enquiries coming from households across all our service areas," said Sean Cheesemore, Managing Director of Pinnacle Removals & Storage Ltd. "We're seeing families upsizing for additional space, couples moving to more affordable areas, and a significant number of relocations driven by the continued flexibility of hybrid working arrangements. The demand for professional removal services has fundamentally shifted compared to previous years."

The surge in domestic moves reflects broader housing market dynamics, with many households taking advantage of changing work patterns to relocate outside traditional commuter zones. School-related moves have also contributed to the increase, as families seek properties in preferred educational catchments ahead of application deadlines.

In response to the unprecedented demand, Pinnacle Removals has implemented several operational changes to maintain service quality. The company has expanded survey availability to accommodate more customer assessments, allocated additional resources specifically for domestic moves, and refined scheduling systems to handle the increased volume efficiently.

"We've restructured our operations to ensure every customer receives the same dedicated service despite the surge in demand," explained Sean Jacoby, Director at Pinnacle Removals & Storage Ltd. "This includes increasing our survey team availability, optimising route planning for our fleet, and ensuring our Move Co-ordinators can provide personalised attention to each relocation, whether it's a local move within West Sussex or a cross-country relocation."

The company's expertise in handling short-distance relocations has proven particularly valuable during this period of increased activity. With established operations in South London and West Sussex, Pinnacle Removals has leveraged its local knowledge and strategic depot locations to efficiently manage the rise in regional moves.

The Pinnacle Removals company profile shows over 30 years of experience in the moving industry, with membership in the British Association of Removers serving as a recognised mark of quality. The company provides comprehensive removal services including packing, fine art handling, and storage solutions, with each customer assigned a dedicated Move Co-ordinator to oversee their relocation.

As the trend toward domestic relocations continues, Pinnacle Removals & Storage Ltd remains positioned to support UK households through their moving requirements, maintaining its commitment to stress-free relocations despite the significant increase in demand.
