

Keathley Landscape Expands Custom Retaining Walls and Stonework Services Across North Texas

December 29, 2025

GARLAND, TX - December 29, 2025 - PRESSADVANTAGE -

Keathley Landscape, a Dallas-based landscaping company serving the greater metropolitan area since 2002, announces the expansion of its custom stonework and retaining wall services to meet growing demand for sophisticated outdoor living spaces throughout North Texas communities.

"Property owners across North Texas are recognizing that well-designed stonework and retaining walls serve dual purposes - they solve practical landscape challenges while creating stunning visual elements that enhance property value," said Logan Keathley, owner and NDS Certified Drainage Contractor at Keathley Landscape. "Our expanded services allow us to deliver comprehensive outdoor transformations that integrate hardscaping, drainage solutions, and living spaces into cohesive landscape designs."

The company's stonework services now include outdoor kitchens, fireplaces, and fire pits designed for year-round entertaining, along with expertly crafted flowerbed borders that define garden spaces. Each project begins with a thorough site assessment to evaluate soil conditions, drainage patterns, and existing

landscape features that may impact installation effectiveness.

The expansion encompasses enhanced capabilities in natural and modern stonework installations, from traditional flagstone pathways to contemporary paver designs, alongside structural solutions including retaining walls. Highland Park TX properties require for both aesthetic appeal and landscape support. The company's broadened service portfolio addresses increasing homeowner interest in transforming outdoor spaces into functional extensions of their living areas.

The expansion comes as homeowners increasingly seek outdoor improvements that combine beauty with practicality. Retaining walls, for instance, provide essential support for sloped properties while creating opportunities for tiered gardens and expanded usable yard space. Similarly, properly installed patios and walkways manage water flow while providing durable surfaces for outdoor activities.

The company also continues to offer its full range of landscaping services, including fence installation and repair, tree trimming and removal, landscape lighting, and seasonal maintenance programs. This diverse service offering enables coordinated property improvements that address immediate needs while supporting long-term landscape enhancement goals.

As experienced sod contractors, the team at Keathley Landscaping integrates hardscape installations with comprehensive landscape services, including professional sod installation, yard grading, and French drain systems. This coordinated approach ensures that stonework projects complement overall landscape health and functionality, particularly important given North Texas clay soil conditions that can present unique drainage and structural challenges.

Keathley Landscaping operates throughout the Dallas metropolitan area, serving Highland Park, Preston Hollow, Lakewood, Lake Highlands, Allen, Frisco, Plano, Richardson, and surrounding communities. The company maintains NDS certification for drainage solutions and brings over two decades of experience in transforming North Texas properties through professional landscape design and installation services.
