

USA Cabinet Store Expands Integrated Kitchen & Bath Remodeling Services Across Northern Virginia

December 08, 2025

FAIRFAX, VA - December 08, 2025 -
USA Cabinet Store has expanded its service model across Northern Virginia showrooms to provide integrated design-build solutions that combine cabinet expertise with complete renovation services. The expansion responds to documented market conditions showing increased demand for professional home improvement projects in one of the nation's most affluent residential markets.

The Fairfax-based company, which operates 13 showrooms across eight states, has transformed its traditional cabinet retail model to offer comprehensive kitchen and bath remodeling services. This strategic shift addresses the region's robust renovation market, where median household incomes range from $132,774 in Fairfax City to $150,113 in Fairfax County, according to recent demographic data.

"The Northern Virginia market has demonstrated consistent demand for premium renovation services, particularly as homeowners seek to update their properties in a competitive real estate environment," said Emin Halac, President of USA Cabinet Store. "Our integrated model centralizes the coordination of

contractors, allowing us to maintain strict oversight from initial design through final installation."

The company's integrated approach combines its established cabinet store with remodeling expertise, offering homeowners a single source for complete project execution. Data from the Northern Virginia Association of Realtors (NVAR) indicates strong fundamentals supporting the expansion. Local properties currently average 27 days on the market, with median sold prices reaching $755,625?a 3 percent increase year-over-year.

Broader industry context provided by the Joint Center for Housing Studies at Harvard University highlights that national home improvement spending remains robust, with kitchen and bathroom renovations consistently ranking among the highest return-on-investment improvements.

The company's showrooms feature extensive product displays, including kitchen cabinets, bathroom vanities, countertops, tiles, and hardware options. Design consultations incorporate 3D visualization technology, allowing clients to preview renovation concepts before construction begins. This comprehensive approach addresses both aesthetic preferences and functional requirements for modern living spaces.

"Our goal extends beyond simply supplying cabinets to becoming trusted partners in complete home transformation projects," added Halac. "Having served the region's homeowners since 2011, we understand the importance of managing every aspect of kitchen and bath remodeling to ensure successful outcomes."

Services now encompass kitchen remodeling transformations, bathroom renovations, custom cabinetry installations, and comprehensive design consultations. The expansion particularly targets affluent markets where professional renovation projects typically range from $30,000 to $60,000 for mid-range kitchen updates.

USA Cabinet Store maintains showroom locations across Virginia, Maryland, North Carolina, Texas, New Jersey, Florida, and Tennessee. The company specializes in bathroom and kitchen renovations, custom cabinetry solutions, and comprehensive design services. For nearly 15 years, the organization has focused on converting client visions into reality through professional remodeling solutions and quality product installations.
