Dolan Roofing & Construction Achieves Owens Corning Platinum Preferred Contractor Status in San Antonio

December 19, 2025

December 19, 2025 -

Dolan Roofing & Construction has achieved Owens Corning Platinum Preferred Contractor status, a designation held by only one percent of roofing contractors nationwide. The San Antonio-based family-owned company earned this recognition through demonstrated excellence in workmanship, customer service, and adherence to the manufacturer's strict quality standards.

The Platinum Preferred designation represents the highest tier in Owens Corning's contractor network, requiring proven financial stability, consistently high customer satisfaction scores, and ongoing professional training. For homeowners seeking residential roofing services, this status provides assurance that their contractor meets rigorous insurance and licensing requirements, undergoes annual performance audits, and maintains comprehensive warranties backed by one of the industry's leading manufacturers. The certification process includes thorough screening of business practices, verification of proper insurance coverage, and continuous oversight to ensure quality control and safety standards are maintained.

As local roofing experts San Antonio residents have trusted for nearly a decade, Dolan Roofing & Construction has built its reputation on treating each project with the same care and attention they would give their own homes. The company offers comprehensive residential and commercial roofing solutions, including roof replacement, repair, storm restoration, and emergency services. Their expertise extends to various roofing materials including tile, metal, and asphalt installations, with specialized knowledge in insurance claim assistance and flexible financing options.

"Achieving Platinum Preferred status validates our commitment to excellence and the trust our customers place in us," said Brandy Dolan, co-owner of Dolan Roofing & Construction. "This designation means homeowners can feel confident they're working with a contractor who has met Owens Corning's highest standards for technical expertise, business stability, and customer satisfaction. Every roof we install comes with the backing of exclusive warranties that only Platinum contractors can offer."

The significance of working with a Platinum Preferred Contractor becomes particularly important in markets where storm damage is common and homeowners need protection from unqualified or transient contractors. The designation requires contractors to maintain comprehensive general liability insurance, workers' compensation coverage, and all necessary state and local licenses. Additionally, Platinum contractors must participate in ongoing training programs to stay current with the latest installation techniques and product innovations.

Homeowners who choose an Owens Corning Platinum Preferred Contractor gain access to the manufacturer?s highest level of warranty coverage, the Platinum Protection Limited Lifetime Warranty. This exclusive warranty is only available through Platinum Preferred Contractors and provides lifetime coverage on Owens Corning shingles for as long as the original homeowner owns the home, along with up to 50 years of non-prorated TRU PROtection coverage on material defects for qualifying lifetime shingles. It also includes 25 years of workmanship coverage backed directly by Owens Corning, covering labor, tear-off, disposal, and replacement if an installation-related issue causes leaks or affects the roof?s performance. To qualify, the full Owens Corning Roofing System must be installed by a Platinum Preferred Contractor and registered within 60 days of installation. Together, these protections offer one of the strongest roofing warranty packages in the industry and give homeowners exceptional peace of mind backed by both the manufacturer and a top-tier certified contractor.

As the company continues to serve the greater San Antonio area, this achievement reinforces its position as a trusted roofing partner for both residential and commercial clients. The Platinum Preferred status represents not just a milestone but an ongoing commitment to maintaining the highest standards in the roofing industry.
