

RestoPros of Tyler-Longview-Nacogdoches Expands Water Damage Restoration Services to Better Serve Customers

December 12, 2025

BECKVILLE, TX - December 12, 2025 -
RestoPros of Tyler-Longview-Nacogdoches has announced an expansion of its water damage restoration services to better serve residential and commercial property owners throughout East Texas. The certified restoration company is enhancing its emergency response capabilities and service coverage to address the growing demand for professional restoration services in the region.

The expansion comes as property owners face increasing challenges from water damage incidents ranging from burst pipes to severe weather events. With over 30 years of combined industry experience, the restoration company has positioned itself to provide faster response times and comprehensive restoration solutions across the Tyler, Longview, and Nacogdoches service areas.

"Property owners need reliable restoration partners who can respond immediately when water damage strikes," said Colten Allen, Owner of RestoPros of Tyler-Longview-Nacogdoches. "This expansion allows us

to deploy our certified technicians more efficiently throughout East Texas while maintaining the high standards of service our clients expect. Water damage can escalate quickly, and having enhanced local coverage means we can begin mitigation efforts sooner, potentially saving property owners thousands of dollars in additional damage."

The company's East Texas water damage restoration services include immediate water extraction, structural drying, dehumidification, and complete restoration of affected areas. Following Institute of Inspection, Cleaning and Restoration Certification (IICRC) guidelines, the restoration team addresses both visible damage and hidden moisture that can lead to mold growth and structural deterioration.

Beyond water damage restoration, the company provides comprehensive disaster recovery services, including fire and smoke damage restoration, mold remediation, storm damage restoration, and complete rebuild services. The 24-hour emergency response team remains available seven days a week to address urgent restoration needs.

The expansion reflects growing demand for professional restoration services as property owners increasingly recognize the importance of immediate, professional intervention following water damage incidents. Industry data shows that properties receiving professional restoration within the first 24-48 hours of water damage experience significantly less secondary damage and lower overall restoration costs.

RestoPros maintains full certification and insurance coverage, providing property owners with confidence in the restoration process. The company offers free inspections and detailed quotes for all restoration projects, helping property owners understand the scope of work required before restoration begins.

The enhanced service expansion includes improved coordination with insurance providers to streamline the claims process for property owners. This comprehensive approach to restoration helps minimize disruption for both residential and commercial clients while ensuring properties return to pre-loss condition.

RestoPros of Tyler-Longview-Nacogdoches specializes in emergency restoration services for water, fire, mold, and storm damage. The company serves residential and commercial properties throughout East Texas with certified technicians following industry-standard safety and restoration protocols. With decades of combined experience, the restoration team manages projects from initial emergency response through complete reconstruction, providing comprehensive solutions for property damage restoration.
