

Neal & Solevilla Personal Injury Lawyers Addresses Distracted Driving Casualties with Expanded Legal Resources

December 23, 2025

Clearwater, FL - December 23, 2025 - PRESSADVANTAGE -

Neal & Solevilla Personal Injury Lawyers, a Clearwater-based personal injury law firm, is intensifying its legal support services for victims of distracted driving accidents as federal data shows these preventable crashes continue to claim thousands of lives and injure hundreds of thousands across United States roadways annually.

The women-owned law firm, which maintains 24-hour availability for accident victims, has expanded its resources dedicated to helping individuals and families affected by distracted driving incidents navigate the complex legal landscape following these devastating collisions. The firm's enhanced focus comes as the National Highway Traffic Safety Administration reports that distracted driving killed 3,308 people in 2022 alone, with countless more suffering life-altering injuries.

Distracted driving encompasses texting, phone calls, eating, adjusting navigation systems, and any activity

that diverts attention from the road. These preventable behaviors create dangerous conditions that often result in catastrophic injuries, including traumatic brain injuries, spinal cord damage, and wrongful death claims. The legal complexities surrounding these cases require specialized knowledge to ensure victims receive appropriate compensation for medical expenses, lost wages, rehabilitation costs, and pain and suffering.

"When someone chooses to text, make a call, or engage in other distracting behaviors while driving, they put every person on the road at risk," said Katherine C. Neal, attorney at Neal & Solevilla Personal Injury Lawyers. "We see firsthand the devastating impact these preventable accidents have on victims and their families. Our role extends beyond legal representation to helping clients rebuild their lives after experiencing trauma that could have been avoided."

Neal & Solevilla distracted driving injury lawyers work closely with accident reconstruction experts, medical professionals, and investigators to build comprehensive cases that demonstrate the full extent of damages caused by inattentive drivers. The firm's approach includes thorough documentation of phone records, witness statements, and surveillance footage to establish liability and pursue maximum compensation for clients.

The legal team at Neal & Solevilla handles various aspects of distracted driving cases, from negotiating with insurance companies to representing clients in court proceedings. Their experience spans multiple vehicle types, including cars, motorcycles, commercial trucks, bicycles, and rideshare vehicles, recognizing that distracted driving impacts all road users regardless of their mode of transportation.

Recent technological advances have created new challenges in proving distracted driving cases, as drivers increasingly use hands-free devices and voice-activated systems that may still compromise attention. The firm stays current with evolving laws and regulations surrounding distracted driving to provide effective representation in this changing legal environment.

Neal & Solevilla Personal Injury Lawyers operates from its Clearwater headquarters, serving accident victims throughout Florida. The firm, led by attorneys Katherine C. Neal and Melissa D. Solevilla, specializes in personal injury cases, including car accidents, motorcycle collisions, trucking accidents, brain injuries, spinal cord injuries, premise liability, and wrongful death claims. The practice has earned recognition for its personalized approach to client representation and commitment to securing justice for injury victims.
